

69th Congress of Liga Medicorum Homœopathica Internationalis

> 16/19, July 2014

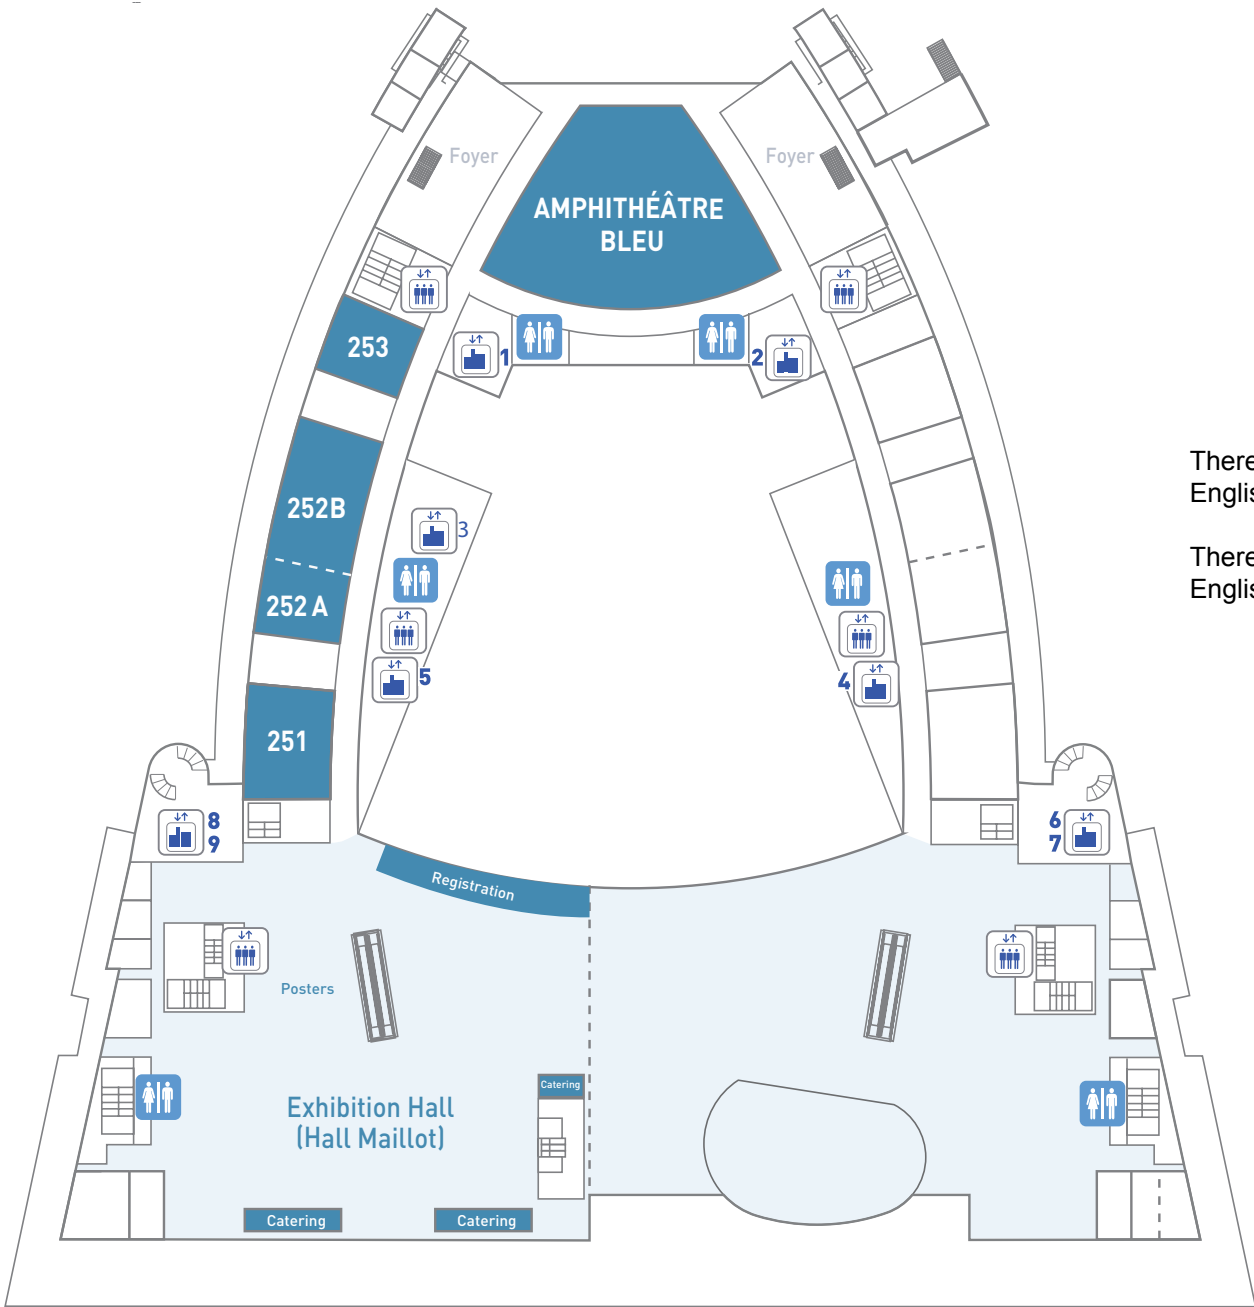

Palais des Congrès - Paris, France

Homœopathy on the move

Strategies, Healing, Simillimum, Simile

Final Programme

Floor Plan of the Palais des Congrès - 2nd Floor

There will be simultaneous translation in **Amphi Bleu**:
English – French – Spanish – German

There will also be simultaneous translation in **Room 251**:
English – French

Welcome Address

Dear colleagues and friends,

The French Homœopathic Medical Doctors and the members of the Organising and Scientific Committees take great pleasure in welcoming you to the **69th Liga Medicorum Homœopathica Internationalis (LMHI) Congress** on 16 – 19 July 2014. This 69th edition of the LMHI Congress takes place in Paris, the City of Light and of the Enlightenment, and the last residence of our common Master, Samuel Hahnemann.

The central theme of this year's congress is:

**Homœopathy on the move
Strategies and Levels of Healing**

We are pleased to present a well-balanced programme. The quality of the presentations has been scrutinised by the Scientific Committee, looking at two aspects: the level of scientific evidence and the correspondence to the congress theme. Other topics will be dealt with as well, so that all can express themselves: epidemiology, basic research, provings, doctrine and philosophy, history, etc. Colleagues coming from 48 (!) countries are participating in this congress.

Homœopathy has a long tradition in France. When Hahnemann moved to Paris in 1835, fifty homœopaths were already working in France. Parisian consultations of Antoine Petroz and Auguste-Paul Curie had great success. A friend of the master, Sebastian Guidi founded the *Société homéopathique Lyonnaise* in

1832 which later became the *Société homéopathique Gallicane*. It is in our capital that François Guizot, Minister of Education of Louis-Philippe, uttered these words about formalising or not the Homœopathic Society of Paris (to which the Academy of Medicine was opposed): 'If homœopathy is a chimera, it will fall by itself.'

The hospitable city of Paris welcomes you. Centuries of cultural and political development led to the creation of a wide variety of museums, theatres, monuments and architectural styles. Many of its masterpieces such as the Louvre, Notre-Dame, the Arc de Triomphe and its internationally recognised symbol, the Eiffel Tower are iconic buildings. More than 180 museums and monuments are there for you to discover!

On behalf of the Scientific Committee, the Welcome Committee and all French colleagues, we wish you a very instructive **69th LMHI Congress** and unforgettable days in Paris.

Philippe Servais
President of the 69th LMHI Congress

Cher(e)s collègues et ami(e)s,

L'ensemble de la communauté homéopathique française ainsi que les membres du comité scientifique et d'organisation ont le grand plaisir de vous accueillir, du 16 au 19 juillet 2014, au **69ème Congrès de la Liga Medicorum Homoeopathica Internationalis (LMHI)**, à Paris, Ville Lumière et la ville des Lumières, dernière résidence de notre maître à tous, Samuel Hahnemann.

Le thème central de ce congrès annuel est :

**L'Homéopathie en mouvement
Stratégies et Niveaux de guérison**

Nous sommes heureux de pouvoir vous présenter un programme bien équilibré. Le comité de lecture a été particulièrement attentif tant à la qualité scientifique des conférences qu'à leur correspondance avec la thématique principale du congrès. D'autres sujets seront cependant abordés de manière à ce que tous puissent s'exprimer : l'épidémiologie, la recherche fondamentale, l'expérimentation, la doctrine et la philosophie, l'histoire etc. Des confrères venus de 48 (!) pays participent à ce congrès.

L'Homéopathie a, en France, une longue tradition. Lorsqu'en 1835 Hahnemann arrive à Paris, une cinquantaine d'homéopathes exercent déjà en France. Les consultations parisiennes d'Antoine Petroz et Auguste-Paul Curie ont grand succès. Un ami du maître, Sebastian Guidi, a déjà fondé en 1832 la Société homéopathique Lyonnaise qui va devenir ensuite la Société homéopathique Gallicane. C'est dans notre capital que François

17.00 Official Opening of the 69th LMHI Congress

Welcome Addresses

*Philippe Servais, President of LMHI France
Renzo Galassi, LMHI President*

Concert

*Marielle Nordmann, harp and her Magic Orchestra:
Guillaume Fonatanarosa and Frédéric Dessus, violin
Bertrand Causse, alto
Anne Biragnet, cello*

18.30 Welcome Reception

Hall Maillot

Chair:	Françoise Moussier	Chair:	Jean-Marie Tribouillard
08.30	Inauguration <i>Philippe Servais, Paris, France</i> <i>President</i>	11.00	Moving towards a physical theory of homeopathy <i>Alexander Tournier, London, United Kingdom</i> <i>I will provide an overview of experiments and what they tell us about the physical nature of the homeopathic phenomenon. I will also present experiments from outside the field of homeopathy which provide us with intriguing insights into the phenomenon. I will also present a theory able to explain the observed phenomena, the Quantum Coherence Domains.</i>
09.00	Choix stratégiques et niveaux de guérison illustrés par deux cas cliniques Part I <i>Philippe Servais, Paris, France</i> <i>Introductory conference - Doctrinal reflection on the evolution of clinical research and knowledge of homeopathic remedies for thirty years. Concepts of Simile and simillimum. Strategic choices and levels of healing.</i>	11.30	FIONA, le chat «bulle de savon» <i>Arlette Blanchy, Bruxelles, Belgique</i> <i>A clinical case of a cat with physical and psychic disorders treated with two doses in 200 K of the remedy hydrogenium with follow up of more than 1 year. A summary of some cases of the same remedy and a presentation of the materia medica of the remedy given with presentation of its proving made by Dr. Jérémy Sherr and students of his 'dynamis school'.</i>
09.30	Debate: Homeopathy on the move in francophone countries <i>Pascale Daubie, Pascale Franck, Jean-Marie Tribouillard, Philippe Servais</i> <i>Interactive debate about the work of clinical research for twenty-five years.</i>	12.00	Place de l’homéopathie uniciste dans le traitement de la crise suicidaire: évaluation diagnostique et stratégie thérapeutique <i>William Suerinck, Marseille, France</i> <i>Exercised with caution, homoeopathy has its place in the treatment of suicidal crisis, alone or in association with conventional treatments. From about ten condensed clinical cases, various strategies of approach are presented, and their limit. An 'integrative' strategy susceptible to take into account, the various trends of thoughts, strengthens the reliability of the prescription.</i>
10.30	Coffee Break	12.30	Hasta dónde cura la homeopatía <i>Silvia Cristina Mercado, Buenos Aires, Argentina</i> <i>This paper does not report successful cases, but shares questions and reflections about those patients who even complying with homeopathic healing rules, come down with deep organic locations. This is something medically inexplicable that requires us to assume a philosophic stance in order to give response to these 'difficult patients'.</i>
		13.00	Lunch Break

Chair:	Florence Peyrefitte	Chair:	Didier Deswarte
08.30	Valeur des symptômes dans les processus de guérison en pédiatrie <i>Pierre Popowsky, Montgeron, France</i> <i>Some authors suggest that the manner of seeing patients in homeopathy is similar to the manner of seeing the world in the phenomenological approach of philosophers. I wish, with Merleau - Ponty, to try to go further than this 'phenomenology of apparent' and suggest a 'phenomenology of unapparent' in homeopathy.</i>	11.00	Psoriasis <i>Pierrette Gengoux, Brussels, Belgium</i> <i>On 9025 cases of dermatologic diseases, 317 patients with psoriasis (3, 5 %) where observed in their evolution. 76 (24 %) where cured (group a) or in a good evolution (group b) with homeopathy mainly when the remedy was selected by the search of the vital sensation by the method of Rajan Sankaran 100 % for the group a, 30 % for the group b.</i>
09.00	Histoire de famille <i>Jacques Rey, Saint-Raphaël, France</i> <i>The existence of a child is, among other things, the result of previous lives and events. The child reveals only a part of the primary symptoms; the singular history of their forebears will give these a meaning. The symptoms of the symptoms of the family history are expressed by the child, revealed in specific circumstances, providing a clinical picture which leads us to the similimum.</i>	11.30	Homéopathie et brûlures: mon expérience en service de chirurgie pédiatrique <i>Isabelle Hofmann, Mundolsheim, France</i> <i>Twelve years ago the author began to use homeopathy in the treatment of children's burns. She tells the steps of her experience and, after a short reminder of usual evolution of burns, she leans her slideshow on pictures showing the course of burns that had previously not healed so easily.</i>
09.30	Homeopathy in the treatment of otitis complicated with mastoiditis: 5 case-reports <i>Françoise Morin, Paris, France</i> <i>Otitis can evolve with complications; mastoiditis should be suspected when patients show worsened clinical conditions, weight loss or decreased hearing. Homeopathic treatment, used concomitantly and in the follow-up of the classical treatment with antibiotics or allopathy, helped the recovery of auditory loss and good health in the five cases described.</i>	12.00	Effectiveness of homeopathic medicines as add on to institutional management protocol for Acute Encephalitis Syndrome (AES) in children: An observational comparative study <i>Raj Kumar Manchanda, New Delhi, India</i> <i>An observational study on 151 children of Acute Encephalitis Syndrome was undertaken at Gorakhpur district, U.P., India, to identify most useful homoeopathic medicines and to evaluate homeopathic treatment (H) as add-on to conventional institutional management protocol in reducing mortality and disability. The most useful homoeopathic medicines have been identified and the results indicate positive outcomes.</i>
10.00	Périnatalité <i>Anaïs Atmadjian, Paris, France</i> <i>HOMŒOPATHY, a medical method using medicinal mediation established as soon as 1810 by Samuel HAHNEMANN, finds its right place in PERINATALITY. It takes into account the history of the person from the first moments of His Life. Don't miss this step!</i>	12.30	Homeopathy with psychotherapy: A new treatment strategy for behavioural problems and ADHD in children <i>Amit Nimbhorkar, Amravati, India</i> <i>In today's medical era, behavioural problems supersede other child psychiatric disorders. It's time to look at these problems with a broad spectrum to manage them. Management of ADHD with Homeopathy along with Psychotherapy can become a much acknowledgeable and most applicable line of treatment. This has been elaborated with a case study of 10 years old child.</i>
10.30	Coffee Break	13.00	Lunch Break

Chair: Luca Scotto di Vettimo

08.30 Transport of anti heat shock effect of Cantharis 200 from one plant to another through water
Anirban Sukul, Kolkata, India

Cowpea batch I, given heat stress connected with batch II (unstressed) and batch III, treated with Cantharis 200c, connected with batch IV (untreated) by capillary water. Batch V: control. FPLC showed similarity in each batch. The change in the water structure by a stimulus, being transmitted through GMN.

09.00 The value of remedy pictures
Edward De Beukelaer, Malborough, United Kingdom

Two case illustrations are used to promote the elaboration of dynamic remedy pictures. One cow benefits from Sarsaparilla for chronic teat cracks. Neon is used to treat a dog based on the remedy picture proposed by the speaker after successfully prescribing this remedy for a cat and having consequently studied the remedy further.

09.30 The skin of Lorenzo
Andreina Fossati, Napoli, Italy

Lorenzo was 14 month old. He suffered from atopic dermatitis. He had been treated with cortisone. I treated him according to Hahnemann's methodology, observing both his illness and behaviour and choosing the suitable medicine for his symptoms. I obtained a visible improvement on both fronts. The follow-up is every month.

10.00 How to prescribe homeopathy in hospital
Simonetta Bernardini, Pitigliano, Italy

In the three years of activity in Pitigliano Hospital we have measured some outcomes to evaluate usefulness of therapies integrated with homeopathy for hospitalized patients adapting the homeopathic protocol to the kind of hospital therapies. The experimentation is in progress and the results will be discussed in the report.

10.30 Coffee Break

Chair: Edward De Beukelaer

11.00 Role of homeopathy in control and cure of psoriasis
Rajendra Sonawane, Pune, India

After treating 14000+ cases of Psoriasis only with Homeopathic medicines. I have developed a pattern of finding out correct homeopathic medicine from the picture of Psoriasis in a given case. I will be sharing my practical experience and one can apply this in practice. Finding a Similimum in Psoriasis made easy!

11.30 How to avoid suppression: The treatment of a case of atopic dermatitis with help of the Hahnemann's theory of psora
Ilya Tiraspolskiy, Moscow, Russia

The purpose of a treatment is to stop pathogenesis of disease and to stimulate its sanogenesis (process of healing). Atopic dermatitis, as a manifestation of the primary psora, is a classical example of sanogenesis, so its' treatment can lead to suppression. How to avoid it is demonstrated with a case.

12.00 Homeopatia texto y arte
Henrique Stiefelmann, São Paulo, Brazil

We work from the text of the patient and comparing with the Thesaurus reaching the medication the patient. We present the case of Sabad, aged 25. Homeopathic Art is a resource diagnostics and evolution in Homeopathy we present 2 cases of Belladonna who repeated the same drawing.

12.30 Homeopathy and physical reality in the light of a new natural philosophy
Michael Hartmann, Speyer, Germany

Analyzing the base of science and its relation to mathematics an alternative philosophy of nature is proposed, which is not oriented at a supposedly objective outside world. The physical reality is rather derived from our nature as evolutionary developed beings. Homeopathy must not be regarded as physically grounded.

13.00 Lunch Break

Chair: Samuel Arrues

08.30 El vínculo dinamizado
Sergio Rozenholc, Buenos Aires, Argentina

The relevance of every doctor making deep introspection is that they could transform their own wounds in creative processes to serve others. Dr. Paschero told his students to grow as spiritual people and, raising awareness of true values of existence, they will know the patient subjectivity, where the essential dynamic factors of human pathos live.

09.00 Fórmula homeopática de diagnóstico del simillimum: Incurables casos clínicos curados como evidencia homeopática (I° parte)
Carlos Campora, Ciudad de Buenos Aires, Argentina

Three clinical cases traditionally considered "incurable" diseases in a very severe stage were cured following the HFDS' guidelines. We include: a) exhaustive documentation, b) objective tests of clinical outcomes, c) video recordings of consultations. Healing level achieved: Radical Cure according to BRECHA (Argentinean Report and Study Bank of Homeopathic Cases).

09.30 Fórmula homeopática de diagnóstico del simillimum: Incurables casos clínicos curados como evidencia homeopática (II° parte)
Carlos Campora, Ciudad de Buenos Aires, Argentina

Cases: 1. Rheumathoid Cachexia: patient lost 11 kilograms; cured with Carcinosinum; 2. Multiphasic Disseminated Encephalomyelitis vs. Devic's Neuromyelitis Optica: patient suffered from severe paraparesis, was dependent on a wheelchair; cured with Cinnabaris; 3. Mixed Connective Tissue Disease: patient was over 20 kilograms overweight, suffered from asthma; cured with Natrum carbonicum.

10.00 Fórmula homeopática de diagnóstico del simillimum: Incurables casos clínicos curados como evidencia homeopática (III° parte)
Carlos Campora, Cuidad de Buenos Aires, Argentina

Conclusion: The HFDS is a methodology that applies modern science tools, mathematics and statistics to the scientific research, analysis, thinking, and understanding of clinical cases. By transforming the homeopathic cures from occasional, random and anecdotal into invariable, predictable, reproducible and systematic, the HFDS turns cured cases into true homeopathic evidence.

10.30 Coffee Break

Chair: Carlos Campora

11.00 Efficacy of individualized homeopathic treatment and fluoxetine for moderate to severe depression in peri- and postmenopausal women (HOMDEP-MENOP Study): A randomized, double-dummy, double-blind, placebo-controlled trial
Emma Macías-Cortés, Mexico City, Mexico

Use of homeopathy to treat depression in climacteric is widespread but there is a lack of well-designed studies. A randomized controlled trial was conducted in a public hospital in Mexico. After a six-week treatment, individualized homeopathic treatment and fluoxetine were effective antidepressants in climacteric women. Homeopathy also improves menopausal symptoms.

11.30 Combined analysis of homeopathic high quality clinical cases
Samuel Arrues, Buenos Aires, Argentina

The conjunct analysis of five fully documented cases with mean 5,4 years of pre-treatment evolution and 3 years of follow up: 1-Fever of unknown origin, 2-Migraine, 3-Recurrent furunculosis, 4-Urticaria, 5-Generalized anxiety disorder, elucidates how High Quality Clinical Case Reports (HHQCRs) can assess the effects of Hahnemannian Homeopathy and may improve the designing of prospective trials.

12.00 Una misma enfermedad, diferentes estrategias de abordaje, distintos niveles de curación
Elisabet Susana Aldinger, Buenos Aires, Argentina

Following the methodology of approach strategies developed by Dr Carlos Cámpora I present here three cases of fibromyalgia, a disease on which allopathic treatment has only limited efficacy. The three clinical cases have been approached from different strategies and the level of healing achieved in each has been assessed according to the Brecha Score of Quality for Chronic Cases.

12.30 Curaciones clínicas utilizando la fórmula homeopática de diagnostico del simillimun y las estrategias de abordaje de casos clínicos del Dr. Carlos N. Cámpora / Diez años de tratamiento con Loxosceles Laeta. Patogenesis realizada con el Protocolo Doble de Experimentación Pura. Verificación clínica de síntomas patogenéticos
Gabriel Crespo, Buenos Aires, Argentina

A clinical case treated with Loxosceles Laeta for 13 years is presented. The remedy was proved in Argentina in 1998, using the Double Protocol of Homoeopathic Pathogenetic Trial. The most characteristic aspects of the protocol are remarked, together with the evolution of the case, verified symptoms and its healing level.

13.00 Lunch Break

Chair: Pascale Jenaer

Session on micro-immunotherapy

08.30

Immunomodulation et synergie thérapeutique
Lourdes Reig, Consell, Espagne

Immunoregulation is a multifactorial action, requiring to act on different pathways of internal signaling; modulating areas such as Nutrition, Ecology, and the Immune System. The optimal Immunoregulation depends on a therapeutic strategy based on the synergistic actions between different treatments.

08.50

Immunomodulation en cancérologie
Pascal Mensah, Nîmes, France

In case of tumor of solid tissues and to balance the basic cascades of the internal signals implicated in tumor pathologies, the Micro-Immunotherapy with the formula C1, seeks to have an impact on the tumor progression - tumor destruction cycle by supporting the M1 type macrophages development.

09.10

The importance of micro-immunotherapy in a holistic homeopathic therepeutic concept regarding lymphatic cancer
Gerhard Hubmann, Vienna, Austria

My therapeutic strategy combines single homeopathic remedies (constitutional therapy, specific approaches that support the organ system) with complex homeopathic remedies (Micro-immunotherapy, homotoxicology) with special focus on patients suffering from lymphatic cancer. After description of Micro-Immunotherapy remedies 2LCL1+2, 2LCLM, 2LKAH, case reports are presented, controlling the progression of the disease by immunomonitoring.

09.20

Micro-immunotherapy in cancer therapy with particular consideration of the basic mechanism of cancer development
Gunter Schlegel, Freiburg, Germany

The ten principles of cancer: 1. Increased cell division; 2. Deactivation of apoptosis; 3. Genome instability; 4. Cancer stem cells; 5. Neoangiogenesis; 6. Activated telomerase; 7. Metastasis; 8. Tumormicroenvironment; 9. Anaerobic metabolism; 10. Prooncogenic chronic inflammation. The key role of microimmunotherapy as a complementary homoeopathic and isopathic principle will be mentioned.

09.40

P.A.N.D.AS. syndrome and its probable relation with viral reactivation: Micro-immunotherapy diagnostic approach - Preliminary results after a 6 months-long treatment on 20 patients
Cesare Santi, Milan, Italy

It has been shown that, in PANDAS syndrome, viral reactivation plays an important part both in diagnosis and in therapy. Clinical data, collected from 20 patients, after 6 months of Microimmunotherapy treatment, demonstrate that the viral hypotheses of PANDAS are plausible and that Microimmunotherapy is an important therapeutic support.

10.00

The development of sequence specific homeopathic DNA remedies for health promotion and disease protection
Peter Kay, Preston, United Kingdom

Homeopathic remedies interact with the genome. The genome contains genes that promote health and others that cause disease. The homeopath Dr. Jenaer perfected the use of potentised DNA molecules to support specific health promoting genes. This has led to development of a series of new gene specific homeopathic DNA remedies.

10.15

Allergie dans l'enfance, signes immunitaires précurseurs d'une maladie systémique - Des résultats thérapeutiques rapides et durables grâce à la micro-immunothérapie
Ursula Bubendorfer, Schwoich, Autriche

Alarming increase of allergy with children. Digestive, nervous, and immune systems, send signals of danger in form of specific symptoms. Unbalance of the immune system leads to microbial infections. Inflammasome activity increases with tendency to autoimmune diseases. Micro-Immunotherapy uses cytokines, chemokines, growth factors, specific nucleic acids in different homeopathic dilutions. Documented clinical cases, fast and lasting results.

10.30

Coffee Break

Chair: Pascale Jenaer

Session on micro-immunotherapy

11.00

Viral reactivation and micro-immunotherapy: A case report

Tiziana Semplici, Milan, Italy

Reactivation of herpes viruses has been shown to influence chronic pathologies. The presentation of clinical cases: medical history and specific laboratory tests – lymphocyte panels and IgG dosage of herpes viruses – before and after microimmunotherapy and/or homotoxicological and neutraceutical medications - shows an improvement in the condition of the patient with both reduction of symptoms and use of allopathic drugs.

11.20

Le virus du papillome humain sans ses différentes manifestations: traitement par la miro-immunothérapie

Cristina Zemba-Vieytes, Barcelone, Espagne

Human papillomavirus (HPV) is a DNA virus from the papillomavirus family (Papillomaviridae) capable of infecting humans. There are more than 100 different types, some of them infecting the skin or mucous membranes, where they can produce warts, condyloma acuminata, cervix cancer, penis cancer and oropharyngeal cancer. Micro-Immunotherapy is a safe and effective treatment for these patients.

11.40

Micro-immunotherapeutic administration of cytokines ameliorate the clinical symptoms in EAE: An animal model of multiple sclerosis

Anna Camps, Barcelona, Spain

Experimental Autoimmune Encephalomyelitis (EAE) was induced in C57BL/6 mice by injecting MOG35-55. Treatment with a cytokine combination, at very low doses (Microimmunotherapy), improves the clinical symptoms in EAE especially during the chronic phase. Moreover, changes in the microglial activation pattern and reduction in the number of infiltrated lymphocytes were observed in treated animals.

12.00

Multiple sclerosis

Renate Schied, Graz, Austria

Multiple sclerosis is an autoimmune disease. The genetic proneness allows antibody development against nerve tissue: myelin and oligodendrocytes. This leads to production of antibodies, which causes destruction of nerve cells, inflammation and attempts of repair. Micro-immunotherapy works with influence on genetic proneness, decrease of antibodies, decrease of inflammation, support of virus defeat.

12.20

Intérêt de la micro immunothérapie dans le domaine dentaire action sur le processus carieux des protéines BMP2 & 4

Jean-Maurice Clercq, Pouzauges, France

An experiment on 19 patients with multiple recurrent caries, despite controlled dental and food hygiene demonstrates, after a 4 years hindsight, that we manage to permanently, and almost totally reduce the problem of tooth demineralization and caries phenomenon after a three months treatment of BMP2 and BMP4 protein.

12.40

High RANTES in jawbone cavitations: Trigger for systemic disease and surgical and homeopathic solution

Johan Lechner, Munich, Germany

Fatty degenerative osteonecrosis of jawbone (FDOJ) is linked with systemic diseases. We analyzed samples of FDOJ for 7 immune messengers with chemokine RANTES at high levels. 23 breast cancer (MaCa) patients showed overexpressed RANTES in jawbone, thus RANTES in FDOJ contributes to propensity towards MaCa. Surgery of FDOJ needs complementary therapy with high potencies of RANTES.

13.00

Lunch Break

Chair: Arlette Blanchy

14.00 Using hetero-isotherapics in cancer supportive care: The fruit of fifteen years of experience
Jean-Lionel Bagot, Strasbourg, France

Well tolerated and easy to use, hetero-isotherapics of chemotherapy, targeted therapy or hormone therapy were shown to improve the quality of life. I observed a significant decrease in side effects, allergic risk and late sequelae in the more than 6000 hetero-isotherapic treatments given to some 4,000 patients.

14.30 Contributions of homeopathy in modern oncology: Discussions of clinical strategies with case studies
Alok Pareek, Agra, India

Based on the clinical studies conducted at Pareek Hospital Agra where more than 11000 cancer patients are treated every year with homoeopathy, Dr. Alok Pareek shall be discussing the strategy he applies for the management of these advanced cases with case examples.

15.30 Un trio de remèdes
Jacques Millemann, Soultz-sous-Forêts, France

Anantherum muricatum acts on boundaries like a custom officer, in fields., houses, wardrobes and on bodies. Bungarus fasciatus: a snake venom of Thailand can show very useful in paralysis of central origin when there is a concomittant amyotrophy. Eichhornia crassipes the waterhyacinth, invasive waterpest, able to grow on biological treatment plant, digests even heavy metals and allows on to digest everything by emphasizing pancreas secretions.

16.00 Coffee Break partially offered by HSF – Homéopathes Sans Frontières

Chair: Jean-Marie Deschamps

16.30 Up-to-date with the possibilities of an individualized homeopathic prevention of malaria for residents in endemic areas
Maurizio Bolognesi, Rome, Italy

Chemical prevention of malaria does not fit for residents in endemic areas because of a lot of problems (side effects, huge costs, increasing resistance to Plasmodium due to overuse). The Author - having conducted a research in Ivory Coast, for the last 15 years - developed a Hahnemannian approach to malaria prevention. He shows how to prevent the malarial infection and re-infection without the least toxicity. The rules to enhance the efficacy of prevention and the choice of the remedy are described.

17.00 L'homéopathie au quotidien, parfois ultime recours
Françoise Moussier, Besançon, France

Homeopathy is the eternal search of simillimum, necessary condition to obtain an ideal cure, which is to be soft and lasting. The objective is sometimes difficult. This is the case of the patient with a very aggressive melanoma followed for 5 years but who could live his life as he wanted. Sometimes it is so simple, as evidenced by this case of cured lung cancer 11 years ago.

17.30 The patient is the master: How symptoms and language of each patient are the guide to the cure - Reflections about 30 years of experience
Anna Pla, Barcelona, Spain

'Feed the cow (homeopathy) that feeds us: be donors, not only receivers' (Dr. J. Imberechts). When we are unprejudiced observers, the patient gives us the criteria: of cure, for the strategy, for the value of each symptom. Dreams. Ways of administration of the remedy. How to deal with the obstacles to the cure.

18.00 Remedy finding by constitution, intuition and guiding symptoms
Leopold Drexler, Feldkirch, Austria

Constitution contains all genetic and acquired elements of the patient. We find the same constitutional elements in our remedies. The key to the patients remedy is the intuition and sensitivity in selecting the remedies by comparing these rather with guiding symptoms than from the repertory. Examples of using this approach will be given. Talk will be in German.

18.30 The new LMHI and ECH guidelines for provings
Report of the harmonisation process
Official presentation and celebration
Ashley Ross, Durban, South Africa
Jean Pierre Jansen, Groningen, The Netherlands
Renzo Galassi, LMHI President
Thomas Peinbauer, ECH President

Chair: Isabelle Hofmann

14.00 Homeopathy consultations in pediatric oncology: 5-year Experience at a University Hospital
Klaus von Ammon, Bern, Switzerland

As in the Swiss population in general, homeopathy ranges amongst the most requested complementary therapies in children treated for cancer. Individual homeopathy complementing conventional cancer treatment was requested for constitutional support as well as symptom relief by almost a quarter of families who had a child diagnosed with cancer.

14.30 Prescribing in genetic diseases homeopathy truly on the move
Exploring the power of homeopathy: How it helped avoid a renal transplant
Jawahar Shah, Mumbai, India

Beautiful girl of 18, winner of many beauty pageants came with Renal Failure and Schizophrenia. She was advised to go for Renal Transplant, but with the help of Homeopathic Treatment, she got relief and saved the kidney. Even after 20 years she is alive and normal without any problems.

15.00 Homeopathy in emergency
Pawan Pareek, Agra, India

Emergencies are life threatening, resulting in mortality outcome. Modern experts and common man says, 'Homoeopathic medicine in emergency??? Not at all possible with homoeopathy!!!' It shows their inadequate knowledge about homoeopathy. Homoeopath accepts cerebrovascular accident challenges in ICU. Script, law of similar remains the same, application changes. Minute observations, quick decision, striking at the correct symptom, results are outstanding.

15.30 Malformation congénitale et miracle du simillimum
Claude Binard, Paris, France

We describe the case of a 7-month-old girl, in a state of heart failure with swollen ankles as big as my wrist, a generalized oedema, a polypnea, an enlarged liver and an enlarged spleen. We shall see that symptoms of the remedy will be found, from time to time in the life of this girl, and disappear with the remedy at higher and higher potency. Synthesis of this remedy confirms the first prescription.

16.00 Coffee Break partially offered by HSF – Homéopathes Sans Frontières

Chair: Anaïs Atmadjian

16.30 Le monde à part - Un cas d'autisme Asperger
Dominique Paulin, Paris, France

At seven years old, Stéphanie exchange with stereotypies and grimaces. Several years of consultation and exchange of remedies from cartoons allowed her to find her voice and creativity. The journey to the Source will be described using drawings and music.

17.00 Cas clinique confirmant l'hypothèse masiste sur Elaps
Marie-José Grangeon Besson, Brives Charensac, France

A ten years old boy suffers from nightmares, night fears and recurrent herpes of the face. He is intellectually very mature but he cannot find his place, he isolates himself from others. He is greedy, reads very much, likes building. The consultation is the opportunity to visit again the understanding of ELAPS by Doctor MASI.

17.30 Cas clinique, 6 ans de recul
Pascale Franck, Esneux, Belgique

I will present a case of a female patient born in 1950, with severe pathologies: erythema nodosum, hypertension, obesity, asthma, allergies.

18.00 Homeopathic approach (integrated) in respiratory and allergic diseases: The experience in the centre of integrated medicine - hospital of Pitigliano
Rosaria Ferreri, Pitigliano, Italy

We present a case study of homeopathy treated chronic outpatients with allergic diseases (seasonal and perennial) and respiratory diseases in Integrated Medicine Center of Pitigliano Hospital. 84.3% of patients with chronic respiratory diseases and up to 100% in seasonal allergic patients show reductions both in symptoms and conventional therapies.

Chair: Gautam Pal

14.00 Case reports of acne with long lasting follow up
Michail Michalakakis, Thesaloniki, Greece

Acne is a chronic inflammatory disease which affects greatly the image to society and self-confidence. Observing the outcome of treatment with conventional medicine in compare with solely homeopathy points out that skin as an organ seems to affect greatly future resistance to physical and psychic stress of a human.

14.30 Vitiligo en la infancia
Patricia Maria Ybarra, Buenos Aires, Argentine

Vitiligo is a hipomelanosis characterized by the appearance of hypopigmented skin macules. The patient who will be presented is a child of 7 years old with a disease whose lesions pigmented with homeopathic treatment. By the analysis it was used the method Approach Strategies of Clinic Cases of Dr. Cámpora.

15.00 Mica: A wonder remedy in treatment of vitiligo
Mohan Nimbhorkar, Amravati, India

Vitiligo is a common pigmentation disorder of Skin. It occurs in 1-2% of the world population and since last decade percentage in pediatric age group has markedly increased. Treatment of Vitiligo by Mica will be elaborated with a case study of 12 years old child with the role of Antimiasmatic remedy in one sided disease like Vitiligo.

15.30 Some ideas regarding treatment of patients with allergoses - Personality idiosyncrasies in persons sensitive to potentiated progesterone
Iryna Pozmogova, Kiev, Ukraine

The article contains data on endocrine factors accompanying the emergence of allergoses. Progesteronum 200 CH was tested in treatment of patients with allergoses. The author gives examples of successful treatment with potentiated progesterone and personality idiosyncrasies of persons with sensitivity to it. Comparison is made with progesterone pathogenesis as described by R. Murphy.

16.00 Coffee Break partially offered by HSF – Homéopathes Sans Frontières

Chair: Amit Nimbhorkar

16.30 Homeopathic management of diabetic wounds: An option to plastic surgery
Rupa Gaikwad, Aurangabad, India

Background - A 73 year male K/C/O- Diabetic mellitus, advised plastic surgery or below knee amputation. Case - patient with post cellulitis large non healing diabetic wound, right leg treated with homeopathic medicines. Conclusion - Homeopathic medicines exerted an immunomodulatory action at cellular level preventing amputation and plastic surgery.

17.00 Level 4-simillimum: Transforming the patient physically, mentally and spiritually - Can we do it?
Antonio Abbate, Rome, Italy

45 years old woman with chronic cystic and diabetis mellitus I. Chronic cystic is completely treated and glycaemia stabilized with Staphysagria. With change of ideas, opinions conceived on the base of personal beliefs and prejudices that are able to induce him to make mistakes during the path of his life.

17.30 Orquideas: Cable a tierra
Hector Hernandez, Lima, Pérou

The use of Vanilla aromatica 200 CH in 6 children diagnosed clinically with Autism, based on general and mental repertorial symptoms succeed in "reconnecting" them to their families, verbally and emotionally, and allowing them to assist and progress in "normal" schools.

18.00 Effective treatment of atopic conditions like urticarial and rhinitis through wholistic approach: A retrospective clinical finding
Gautam Pal, Kolkata, India

Atopic conditions, here urticaria and rhinitis, have been managed satisfactorily (93%) among 15 patients with single medicine selected for the entire array of clinical presentation through wholistic approach, the only mode of treatment discovered and practised by Dr. C.S.F. Hahnemann. The selection was based on fundamental cause and Totality of symptoms.

Chair: Gustavo Aguillar

14.00 La importancia de la aplicación de lo miasmático en la clínica: Caso agudo
Francisco de Asís Moya, Sevilla, Spain

The miasmático presents a practical and immediate application. It allows us to deduce the evolution of the case. Child of 17 months with the miasma sycotic and having good prognosis. Aconite and Antimony Tartaricum prepare the ground for deep drug action. The simillimum is modifiable according to their state of existence.

14.30 Curación y falsa curación
Antonio Sanchez Caballero, Mexico City, Mexico

With the Miasmatic clinic, which Hahnemann began and continued by Proceso Ortega, the Miasmas can be cured, avoiding suppressions and making false or apparent healing, because of not taking the whole person an his present. Making Homeopathy a transcendent medicine.

15.00 Experiencia y eficacia de la LM según los niveles de curación
Raul Gustavo Pirra, Buenos Aires, Argentina

The use of the LM or Q potency is exposed, even on the final aggravation of symptoms, and their sequence. This is supported by short videos of patients. They relate their experience by taking the same medicine, first in CH and then LM. This is to demonstrate that through the use of LM, it is often easier to access a transformation physically, mentally and spiritually (Level 4), than with the Centesimal scale.

15.30 Enferma con myeloma múltiple
Eduardo Angel Yahbes, Buenos Aires, Argentina

It has presented a case to illustrate the need to add other therapeutic approaches, despite the overall improvement of the patient with their constitutional homeopathic treatment when chronic disease takes on a dynamism that makes it resistant to cure, despite the positive response. Laboratory results and NMR demonstrate the positive changes in the disease, with isopathic biological treatment of biological causality, proposed by Milstein.

16.00 Coffee Break partially offered by HSF – Homéopathes Sans Frontières

Chair: Jaume Costa

16.30 Back to Hahnemann’s principles of cure through the organon leading to a synthetic and miasmatic prescription
Estrella Torres, Mexico City, Mexico

Healing is a complex process that requires a methodology. Hahnemann states a required process trough healing in paragraphs 72 and 153. A miasmatic prescripton is the most effective method based on Hahneman’s Organon and its fundamentals. Ortega’s methodology offers a structured clinical application for a miasmatic prescription based on these paragraphs.

17.00 „Dass ich erkenne, was die Welt im Innersten zusammenhält“ Johann Wolfgang Goethe - So that I may perceive whatever holds the world together in its inmost folds - Strategy for better understanding of polychrests and smaller remedies
Barbara Bichsel, Schiers, Switzerland

This statement of Faust in the so-called tragedy written by Johann Wolfgang Goethe shall be applied to the research on homœopathic remedies. What is necessary to understand the essence of a remedy? On behalf of the experience of our research group we found it essential to study the phenomena of the primary substance beside the symptoms of the homœopathic proving.

17.30 IGEH Workshop: ‘Chemins divers pour atteindre le même but’ et ‘divers accès pour comprendre mieux les remèdes’
Barbara Bichsel, Schiers, Suisse

To start the workshop each participating group gets the opportunity to describe in a few words their method of studying the homœopathic remedies. The following discussion shall reveal the advantages of each method. The exchange of ideas shall be without judgement; the basic idea is to understand and estimate the different approaches and to find new ideas for the own work. Central idea: listen-estimate-exchange!

Chair: Carlo Melodia		Chair: Carlo Melodia		Chair: Renzo Galassi		Chair: Alain Pitel		
14.00	Evaluating the role of homoeopathic medicines along with life style modification in obesity: An open label observational study <i>Nandani Sharma, New Delhi, India</i>	Session organised by LUIMO – Part II		08.30	Vital sensation – Clinical cases <i>Rajan Sankaran, Mumbai, India</i>	11.00	Thérapie miasmatique <i>Bertold Fleig, Mainz, Allemagne</i>	
	<i>Worldwide, at least 2.8 million people die each year as a result of being overweight or obese, and an estimated 35.8 million (2.3%) of global DALYs are caused by overweight or obesity. So study aimed to evaluate the role of homoeopathic medicines along with life style modification in obesity and to arrive at a group of homoeopathic medicines for obesity.</i>	16.30 The multiplicity of healing levels in children <i>Viviana Rasulo, Napoli, Italy</i>			<i>Traditional Homeopathy with its emphasis on Symptoms and contemporary innovations with emphasis on Sensation and Systems (kingdoms) along with knowledge of the Genius of remedies complement each other in case analysis to produce reproducible and consistent results. This method called Synergy is illustrated here with case examples.</i>		<i>Diagnosis: - recurrent herpetiform Dermatitis, (M.Gougerot-Hailey-Hailey); - an autosoma dominant genetically transmitted mutation of the ATP2C1-gene on the mother’s side; - ICD 10: Q 82.2; - Otosclerosis, autosomal dominant; - ICD 10: H 80. The patient shows multimiasmatic informations. The main remedy is Syphilinum. Is the Simile based on the miasmatic theory?</i>	
14.30	Expérimentation homéopathique des cytokines, facteurs de croissance cellulaires et nerveux dans le traitement des maladies chroniques auto-immunes <i>Jérôme-Louis Robert Malzac, Lecce, Italie</i>	17.00 A clinical case of a Kawasaki disease <i>Francesco Siccardi, Napoli, Italy</i>		09.15	Le masisme, une méthodologie pour aujourd’hui et pour demain au service de la recherche homéopathique - Cas clinique éclairant la méthode <i>Marie-Luc Fayeton, Brives Charensac, France</i>	11.30	Choix du remède sur les symptômes ou sur la susceptibilité profonde du patient? <i>Guy Loutan, Genève Thônex, Suisse</i>	
	<i>New immunological Homeopathic Remedy in 4C, 15C and 30C helps to check the therapeutic balance of chronic autoimmune diseases. After 25 years of clinical research, the project of Materia Medica of Homeopathic Cytokines could associate new therapeutic solutions to traditional strains of Homeopathy and increased therapeutic efficacy in the context of chronic autoimmune diseases.</i>	<i>Kawasaki syndrome is a severe disease. A child diagnosed for Kawasaki syndrome at the local pediatric Hospital, was treated and cured with Homeopathy. When the single remedy is chosen according to the symptom value, respecting the patient, as Hahnemann has taught, Homeopathy offers a valid therapeutic option in such a disease.</i>			<i>Masism, a methodology for today and tomorrow, serving homeopathic research presented by Dr Fayeton AFADH's president. Clinical case demonstrating the method.</i>		<i>Evolution of the way of choosing the remedy, from symptoms to patient's susceptibility.3 cases: literal repertorization; deep, chronic and personal aspects; personal reactional dynamic following A.Masi Elizalde. Importance of understanding our materia medica and patient's dynamic. For this goal 'Répertoire de thèmes et matière médicale dynamique'.</i>	
	Session organised by LUIMO – Part I			09.45	Choix stratégiques et niveaux de guérison illustrés par deux cas cliniques – Part II <i>Philippe Servais, Paris, France</i>	12.00	Conférence Boiron <i>Valérie Poinot, Messimy, France</i> <i>Gérard Ducerf, Briant, France</i>	
15.00	Is it possible to recognize a therapy strategy by analyzing the potencies prescribed? <i>Vincenzo Rocco, Adele Alma Rodríguez, Napoli, Italy</i>				<i>Two clinical cases will be discussed: 1) a severe depression, psychotic said; 2) a polycythemia vera (Vaquez's disease).</i>		<i>We aim to provide you with medicines as pure as perfect as possible. More and more, this commitment turns out to be an everyday necessity for homeopathic medicines. Due to the specificity of homeopathic medicines, each step of the manufacturing process requires a great rigour. For a long time quality standards of homeopathic medicines connect physicians and pharmacists.</i>	
	<i>To know if we can recognize a Homeopathic medical strategy - intention to treat - just by looking at the administered potency(ies), we looked at 10.000 prescriptions at LUIMO. The results show that physicians have the tendency to administrate potencies in increasing Korsakovian and LM scale according to Kent teachings.</i>				10.30 Coffee Break			
15.30	Homeopathic medicine, ‘autonomous’ method: Requirements for its correct application <i>Carlo Melodia, Napoli, Italy</i>	17.30 A clinical case of Hashimoto autoimmune thyroiditis <i>Elvira Erman, Adel Alma Rodriguez, Napoli, Italy</i>		Lyrical musical interlude by Hélène Carpentier		12.55	Announcement of the LMHI 2015 and LMHI 2016 congresses <i>Gloria Feighelstein & Gustavo Cataldi</i>	
	<i>Retracing the steps of the thought of S. Hahnemann concerning the proper training of the homeopathic practitioner is critical to gaining a full understanding of a stand-alone methodology employed in medicine, both as regards the paradigm and the means of treatment that resulted from unprecedented research. This will be illustrated with clinical examples by speakers from the LUIMO.</i>	<i>The method adopted in Homeopathic Medicine focuses on the unitary application of the remedy, according to the law of similar. This case does not solely intend to demonstrate the improvement experienced by the patient, but also to reiterate how the orthodox application of the method can give every remedy a hitherto unknown clinical indication.</i>					13.00 Lunch Break	Lyrical musical interlude by Hélène Carpentier
16.00	Coffee Break partially offered by HSF – Homéopathes Sans Frontières	18.00 Symptoms and modalities, clearly specified by the patient allow the pharmacist to intervene in acute with simillimum, confirming the effectiveness of the homeopathic method <i>Virginia Paribello, Napoli, Italy</i>						
		<i>Acute disease is characterized by symptoms that occur suddenly, with a fast progression and a rapid conclusion. The acute state, presenting itself with precise and unmistakable treats, allows the identification of the characteristic and essential remedy picture. Identifying those condition permit the pharmacist to attend the patient or to orient her/him toward a Homeopathic MD.</i>		18.30 A dedicated web site to report provings for medical homeopathic education <i>Vincenzo Rocco, Adele Alma Rodriguez, Napoli, Italy</i>				
		<i>LUIMO has realized a web site (www.sperimentazionepura.org) able to trace the proving of the experimenter and the dialog with his assistant in “real time”. This permits to standardize a fast collection and analysis of unlimited quantities of proving data. The site can evolve into a tool for multicentric, international provings.</i>						

Chair: Alain Sarembaud		Chair: Wolfgang Springer	
08.30	The cure of oncologic patients with homeopathy <i>Dario Spinedi, Orselina, Switzerland</i>	11.00	Emphasizing mental and constitutional symptoms concerning cancer and autoimmune disease (Systematic Order of the Periodic Table, Jan Scholten) Dietmar Payrhuber, Vienna, Austria
<i>The topic of this presentation is the contribution of homeopathy to the cancer treatment. The material used for this presentation is the result a long experience with cancer patients at the Santa Croce clinic (Switzerland). The use of the Q potencies in the treatment of cancer patients will be explained.</i>		<i>On the basis of autoimmune diseases and cancer cases we demonstrate how the constitution and the mental state (life story) are interwoven, how epigenetic elements influence the constitution and as a complex mechanism provoke diseases. The appropriate remedy removes the disease process and may promote the development of the person.</i>	
09.00	Breast cancer: Modern approaches in homeopathic treatment <i>Tapas Gan, Kolkata, India</i>	11.30	A case of chronic myeloid leukaemia in which span and quality of life was increased by homeopathic treatment Sayed Tanvir, Punjab, India
<i>Today in the world a lot of Females are diagnosed with Breast cancer and it has been a serious concern for all of us. I would like to give a brief presentation about it and also to share my experience around the world.</i>		<i>Mr. X 27y male of CML with recurrent fever & severe thrombocytopenia was given Homoeopathic medicine. Improvement started within 5 days & after 15 days his blood investigations were remarkably better. According to oncologist his life was about to end but with homoeopathic treatment he lived for a considerable time.</i>	
09.30	Healing in cancer cases <i>Heinz Möller, Stuttgart, Germany</i>	12.00	A case of chronic lymphocytic leukaemia Veneeth Sidharthan, Kerala, India
<i>The phenomena of disease today in connection with Hahnemann's conception of disease in §5+§6 Organon make homeopathy difficult. I will discuss two cases. 1) the development of a boy aged 4with astrocytoma by using Calcaria for 10 years. Obviously healed, there is still a persisting alteration of brain tissue in NMR-CT: 2) a clear healing of a chronic hemicrania with reappearance of menses, which were the result of two tumors.</i>		<i>Introduction of the patient with laboratory investigation reports; History of the disease, patient's symptoms; Briefing CLL and conservative treatment; Symptoms of the patient, analyzing the rubrics; Arriving to similimum and differentiating with other medicines; Deviation to destructive miasm; Observation after correct medicine with current laboratory reports; Testimony by patient</i>	
10.00	Méthodologie d'étude des idées et contexte historique de la première édition de l'Organon <i>Olivier Rabanes, Paris, France</i>	12.30	Laissez-moi respirer ! Pascale Daubie, Esneux, Belgique
<i>This new translation in French allow us to understand the principal concepts of Hahnemann by his first complete theoretical expression of his new doctrine and therapeutic in 1810. The knowledge of the culture and history of medicine on that period help us to study what is the original position of Hahnemann in the field of medical thinking at the beginning of the XIXth century.</i>		<i>Single-remedy chronic case of menorrhagia and nasal obstruction in a 40 year-old woman. This remedy probably represents the patient's simillimum. Indeed, it has been effective for the last thirteen years. This case will allow us to differentiate true and false acute episodes. Main issues of Am-c. will be developed, according to the analysis of Marc Brunson and the CLH, based on the tripod raw material - materia medica - clinical cases.</i>	
10.30	Coffee Break	13.00	Lunch Break

Chair: Rajesh Gupta		Chair: Todd Hoover	
08.30	Sustainability of homeopathy in everchanging human sufferings <i>Juhy Gupta, Bhopal, India</i>	11.00	Breast tumour reduction: Pre-mastectomy with the Banerji Protocol <i>Joyce Frye, Philadelphia, United States</i>
<i>Human sufferings and their responses to medications have re-established medical / scientific laws ever since disease developed. Here is an attempt to reemphasise the never failing principle of homoeopathy in the everchanging interpretation of disease picture and offer a solution as well. We reprove “Similia Similibus Curantur” in totality and diversity.</i>		<i>A case of pathology confirmed reduction in breast tumor size prior to mastectomy with two weeks of treatment with a Banerji Protocol is presented, along with results of subsequent further research in the Banerji Clinic database during a visit in Spring 2014 reviewing over 1500 cases of breast cancer.</i>	
09.00	Chronic degenerative diseases and unicist homeopathic therapy <i>Mauro Dodesini, Cortona, Italy</i>	11.30	Proving of Thymus vulgaris <i>Reinhard Flick, Wien, Austria</i>
<i>The authors illustrate the therapeutic results obtained with homeopathic unicist medicine in three cases of terminal cancer and a case of a chronic degenerative disease such as Ankylosing spondylitis in veterinary medicine. These diseases, which are considered incurable, observing individual signs and symptoms have led to different levels of healing.</i>		<i>A proving of 2012 in Austria, 8 provers. C30 was proved, no blanks, Hahnemannian style. 7 provers reacted well to the remedy, 3 of them had very strong mental symptoms mainly more energy and confidence up to harshness. Many dreams occurred. All provers reacted with physical symptoms.</i>	
09.30	Homeopathic approach towards the treatment of advanced cases of thromboangitis obliterans <i>Rajesh Gupta, Gwalior, India</i>	12.00	Paediatric Homeopathy: A parent proxy-report of their children's health related Quality of Life using PECSFD in six European countries and Brazil <i>Michel Van Wassenhoven, Chastre, Belgium</i>
<i>Thromboangiitis obliterans also known as Buerger's disease is a recurring progressive inflammation and thrombosis of small and medium arteries and veins of the hands and feet. In advanced cases of Thromboangiitis obliterans homoeopathic medicines have proved highly successful in providing miraculous cure to the immensely suffering patients and can also be equally effective in cases where amputation has already taken place.</i>		<i>Survey 6 European countries, children, adults. Changes in QoL indexes and complaint limitations is positive and linked to patient's satisfaction.</i>	
10.00	Niveles de curación: Un caso clinico considerando lo miasmático <i>Maria del Rosario Sanchez Caballero, Mexico City, Mexico</i>	12.30	Treating EGC (Eosinophilic Granuloma Complex) in cats with homeopathic remedies <i>Ronit Aboutboul, Tel Aviv, Israel</i>
<i>I present a case to prove the cure through the miasmatic. The diagnosis was LUPUS, the name of the disease is the least important aspect, what is really transcendental to reach its cure: The miasmatic diagnosis all through symptom classification in order to get to the simillimum remedy.</i>		<i>This presentation summarizes homeopathic treatments with snake remedies of cats suffering from Eosinophilic granuloma complex. Snake remedies were chosen by individual repertorisations and administered in different dilutions. Reactions were mostly quick and dynamic, leading to significant improvements and complete recoveries.</i>	
10.30	Coffee Break	13.00	Lunch Break

Chair:	Dietrich Clemens
08.30	<p>Pele’s Hair – Lava Kilauea: A remedy to treat patients after heavy traumatic disturbances <i>Christina Ari, Güssing, Austria</i></p> <p><i>A comprehensive paper to show impressive results based on two independently conducted classical provings, each of them multicentre, double blinded, and placebo controlled, contrasted with a trituration proving and supplemented by healing symptoms of clinical cases. To precisely identify this new remedy, statements of experts such as Cicchetti J.T., Hildebrandt J., Schlingensiepen I., and Tumminello P. conclude this work.</i></p>
09.00	<p>La théorie des cinq cercles <i>Olivier Soulier, Marcq en Baroeul, France</i></p> <p><i>I will present my theory on the five circles of illness, which opens up a path to understanding the connections and the transitions between different stages in life: conception and birth, good health and acceptance of human suffering, acute medical conditions, psychosomatic chronic illnesses, denial, transgenerational transmission, the world and its epidemics, wars, and politics. A completely new theory.</i></p>
09.30	<p>Health status and satisfaction of patients with breast cancer with or without additive homeopathy <i>Michael Frass, Vienna, Austria</i></p> <p><i>Subjective evaluation of health status and satisfaction of 100 breast cancer patients with or without additive homeopathy are compared by help of questionnaires. 98 % of patients with homeopathy would like to be treated again with homeopathy, 63% felt ‘much better“’. There was no difference regarding ‘convalesce in any case’.</i></p>
10.00	<p>A case of Crohn’s disease: Higher insights with homeopathy <i>Srinivasa Rao Nyapati, Hyderabad, India</i></p> <p><i>A case of Crohn’s disease on conventional treatment, was treated with classical Homoeopathy with an objective to gain insights into transgenerational transmission of his illness while experiencing remission. Corrections in his attitude, relationships, developing inner strength towards a positive personal and professional front were observed during the course of treatment.</i></p>
10.30	Coffee Break

Chair:	Jaume Costa
11.00	<p>The concept of form: A criterion justifying the art of homeopathic healing Some thoughts about the Hahnemannian legacy between classical philosophy and modern physics <i>Chiara Merlino, Turin, Italy</i></p> <p><i>Two centuries before modern Physics, Hahnemann was able to find the interconnection corresponding to the philosophical concept of synolon. Man is the union of Vital Force and material body and Hahnemann sensed that dilution and dynamization make a remedy act straight on a vibrational level, and therefore affect organic matter.</i></p>
11.30	<p>Amanita rubescens: The homeopathic remedy <i>Céline Lourette, Luneray, France</i></p> <p><i>Radical Healing. Alignment. Heart-centred. - Shows what has to change – any toxic habits of thought or substance; - Promotes release from conditioning, and healing of held hurts; - Especially suitable for those who carry their world on their shoulders; - Enables listening in, going deep, even to feared dark places; - Brings laughter, ease, a sense of inter-connectedness.</i></p>
12.00	<p>Superficial and deep healing through the miasmatic state <i>Rene Torres, Mexico City, Mexico</i></p> <p><i>The worth to cure in a patient is deeply related to a chronic disease. The methodology is based on nearly observing the acute disease and its relationship with the miasmatic state. That chronic and fundamental predisposition attended by Hahnemann as psora, sycosis and syphilis and by Ortega with hypofunction, hyperfunction and dysfunction.</i></p>
12.30	<p>Actinides: The mysteries of the last series <i>Didier Lustig, Paris, France</i></p> <p><i>The actinides correspond to the most radioactive and most powerful elements of the periodic Table. Their homeopathic efficiency reveals an astonishing healing power in heavy diseases and disabilities. An overview of the 7 existing actinides remedies will be presented, with a particular focus on the 2 last –Americium and Californium.</i></p>
13.00	Lunch Break

Chair:	Eric Vanden Eynde
08.30	<p>Homeoprophylaxis: Educating children – Immune systems as a new public health model <i>Kate Birch, Minneapolis, United States</i></p> <p><i>Upon examining the true nature of infectious disease from a holistic perspective we can effectively analyze Public Health Care models of infectious disease prevention. We will compare and contrast through clinical outcomes vaccination with Genus Epidemicus and Homeoprophylaxis (HP) to determine which model is more suitable to fulfill the role infectious disease plays in the evolution of the individual and collectively.</i></p>
09.00	<p>Identification of unknown homeopathic remedies by delayed luminescence <i>Karin Lenger, Offenbach, Germany</i></p> <p><i>Photons are detected by magnetic resonance in homeopathic remedies. The potencies’ levels are measured by two methods 1) by their characteristic resonating magnetic field or 2) by their number of photons emitted, both increasing from low to high potencies. Through these methods it is possible to distinguish between remedies and placebos because of their different resonance frequencies and spectra.</i></p>
09.30	<p>Salix fragilis <i>Daniel Saelens, Anderlues, Belgique</i></p> <p><i>Study of Salix fragilis based on a cured clinical case of a cat with ruptured cruciate ligaments. The main symptom was grief following the death of the baby. The remedy will be presented in relation to the biology of the tree: gushing vital force, break, drift, new location</i></p>
10.00	<p>Materia medica and verification of symptoms of Salix fragilis <i>Anna Pla, Barcelona, Spain</i></p> <p><i>Update of the materia medica of Salix fragilis. Difference between cured symptoms, guiding symptoms and confirming symptoms. Swirl process between the understanding of both patients and Salix-f.</i></p>
10.30	Coffee Break

Chair:	Daniel Saelens
11.00	<p>L’homme et l’animal: Résumé / Homeopathy, animals and humans <i>Jacques Millemann, Soultz-Forêts, France</i> <i>Ronit Aboutboul, Israel</i></p> <p><i>César: the Briard Link: influence of family life. A bladder paralysis, and a paraplegia cured with Caust; Physical or temperamental similitudes. Gallus & Marie-Claire: Gallus has lamiitis, Marie-Claire depresses; Both Phos. A corn-snake and its trainer: both Ars</i></p> <p><i>The presence of animals in our lives affects us in ways that may be invisible to us. These invisible links may become visible through the process of homeopathic diagnosis and treatment. The ‘animan’ (animal and man) concept can be illustrated through treated and cured animal homeopathic cases.</i></p>
11.30	<p>The homeopathic unicist technique in unconventional animals: Three clinical cases <i>Gustavo Picci, Cortona, Italy</i></p> <p><i>The author describes the treatment of Metabolic Bone Disease in some iguanas living with mandibular deviation, maxillary abscess and deviation of the spinal column. Furthermore, the treatment of a neurological syndrome in a Border Canary affected by Staphyl. Aureus meningitis, and the treatment of the syndrome «Going Light» in a parrot Lovebird are analysed.</i></p>
12.00	<p>Évolution conceptuelle de la sixième et septième observation pronostique de Kent <i>Andrea Brancalion, Parma, Italie</i></p> <p><i>Based on a few veterinary clinical cases the author reflects on Kent’s 6th and 7th Prognostic Observations as put forward by Alfonso Masi-Elizalde. A dog with mediastinal neoplasm, another dog with thyroid cancer and a third dog with massive renal degeneration and severe renal failure. In all these cases, the administration of the individualized remedy has reversed the prognosis, rapidly leading to unexpected outcomes.</i></p>
12.30	<p>Dissertation du Vétérinaire à tous les Homoeopathes Hahnemanniens / Dissertation from the Veterinarian to all Hahnemannian Homoeopaths <i>Eric Vanden Eynde, Tervuren, Belgium</i></p> <p><i>On behalf of EBH (Ecole belge d’Homœopathie) and SRBH (Société Royal Belge d’Homœopathy) I propose the veterinary approach following the instructions of Hahnemann. He already gave us the tips why plants, animals and the mineral world are ill and polluted. They become pathogen for humans too. “Homo sapiens with reason-gifted mind” need to use this reason-gifted mind for the higher purposes of his existence (Org9).</i></p>
13.00	Lunch Break

Chair: Chantal Chemla		Chair: Yves Maillé	
14.00	Case of oesophageal stricture shows true potential of homeopathy <i>Jawahar Shah, Mumbai, India</i>	16.30	Traitement homéopathique pour les enfants prématurés <i>Didier Grandgeorge, Fréjus, France</i>
<i>Scope of Homeopathy in treatment of pathologically advanced clinical conditions, Case of 65 years female, came with a Barium Examination which revealed that it was the result of serious disease- Oesophageal Stricture. Her Barium report after 8 months of regular homeopathic treatment showed an anatomically and physiologically normal oesophagus.</i>		<i>We'll give our point of view about the most important homeopathic remedies for premature children in is30 years practice. Two great remedies are CARBO VEGETALIS and OPIUM, but other small remedies are interesting to know like THIOSINAMINUM(stricture in cardiac valvuls) or LATHYRUS (spastic paraparesy).</i>	
14.30	L'histoire d'une femme très affectueuse et gentille et sa recherche difficile de soi-même et de sa place dans ce monde <i>Paul Van Roey, Deurne, Belgique</i>	17.00	Revision of the so-called miasmatic concepts <i>Jacques Imberechts, Bruxelles, Belgium</i>
<i>The history of a patient consists of a multitude of data, physical, emotional and mental. In most of my cases the key lies in the physical symptoms. In this uncommonly story my choice has been based entirely on emotional and mental symptoms. How to translate the patients language to rubrics?</i>		17.30	Homeopathic management of chronic renal failure: Case discussions from a study conducted at our centre <i>Aditya Pareek & R.S. Pareek, Agra, India</i>
15.00	Homeopathy in auto-immune diseases: The use of Lanthanides explained in three cases <i>Résie Moonen, Maastricht, The Netherlands</i>	<i>Chronic kidney disease patients on conventional treatment are often left with no no-invasive treatment possibilities. I will present the research results of a very large number of such patients on Homoeopathic treatment and a case example shall be studied in detail.</i>	
<i>Three cases will be presented of young adults with auto-immune diseases: alopecia, M. Crohn and Multiple Sclerosis. Inspired by Jan Scholten, remedies of the Lanthanides series were prescribed. During the presentation the strategy of choosing a stage and remedy will be explained and a 2-4 year follow-up will be shown.</i>		18.00	Ceremony 60 years R.S. Pareek
15.30	Homeopathic treatment for gastro oesophagal reflux disease severe and persistant, on a five years old child gastritis and iron deficiency anemia! <i>Hélène Renoux, Villejuif, France</i>	Medal presented to Philippe Servais by the representatives of the Library of the International LMHI	
<i>The remedy has been found with characterized physical symptoms and with the child's behavior and perinatal history. The good clinical result, a reflection on the stock used, allow an in-depth understanding of the materia medica of the remedy and of its use for diseases related to difficult pregnancies.</i>		Hommage Jacques Imberechts & Jacques Millemann	
16.00	Coffee Break	Boat Cruise & Dinner at 20.00 hrs (for details see page 43)	

Chair: Guy Loutan		Chair: Roberto Petrucci	
14.00	De l'emprisonnement du trop faire à la liberté <i>Pascal Beghi, Paris, France</i>	16.30	Breast cancer and homeopathy: A therapeutic manual created on the basis of meta-analytical study and integration of various resources to combat different aspects of the disease <i>Shruti Shah, Gujarat, India</i>
<i>Young mother, kinesitherapist is sick for a tendinopathy in the right shoulder. Two weeks after the remedy, the pain was gone, The patient's behaviour had changed dramatically. Through the discourse of this woman, the hypothesis of Dr. Masi and method of sensation are confluent.</i>		<i>This talk highlights a therapeutic schema/manual of breast cancer; constructed after meta analysis and integration of findings obtained by studying breast cancer and its various aspects from different literature i.e. Medicine, Pharmacology, Repertory, Materia Medica, Therapeutics, Toxicology, etc ; to enhance the clinical efficiency and sharpen the research strategy.</i>	
14.30	A case of planum sphenoidal meningioma with aortic stenosis <i>Pravin Beedkar, Aurangabad, India</i>	17.00	A case of carcinoma stomach with infiltration to diaphragm, pancreas and peritoneum <i>Veneeth Sidharthan, Kerala, India</i>
<i>A 63 yrs old female patient consults to control the growth of tumor. It was operated eight month back. Again it starts growing fast. Patient diagnosed Planum Sphenoidale Meningioma after presenting with vision loss in left eye and Aortic Stenosis. Homoeopathic medicine not only reduced the tumor but also helps to normalize the aortic valve.</i>		<i>Introduction of patient with diagnostic reports—USG SCAN, and hospital discharge reports; Briefing carcinoma stomach; Symptoms of the patient, analysis of the symptoms, totality; Arriving to similimum, selection of medicine, differentiating with close running medicines; Observation after medicine; Scanning reports after medication, video footage of patient; Testimony by patient</i>	
15.00	How to treat acute condition in end-stage patient with brain malignant tumour <i>Seyedaghnoor Sadeghi, Tehran, Iran</i>	17.30	Comparison of healing levels achieved in cancer patients by using the conventional palliative therapy and individualized homeopathic treatment <i>Francesca Talarico, City of Catanzaro, Italy</i>
<i>A comatose and quadriplegic man, suffering from bipolar disorder, who was mistreated with herbals for 6 months, was seen. The patient had rejected brain surgery. However homeopathic Belladonna helped him to come out of coma and seizures temporarily.</i>		<i>We treated seven cancer patients with the conventional palliative therapy, seven with individualized homeopathic treatment (IHT). We assessed their quality of life in basal conditions, after one and four months of treatment. The statistical analysis was performed. IHT gave a global healing, with significant clinical improvements compared to the control.</i>	
15.30	The treatment of several cancers even terminal cases <i>Cesar Luis Cremonini, Argentina – Talk given by Rafael Muñoz</i>	18.00	Homeopathic supportive and palliative approach for cancer patients <i>Mikako Harada, Kagoshima, Japan</i>
<i>After long years of investigation, my doubts started clearing out due to the fact that not only terminal cancers, but also any terminal illness I treated in the first years and the foregoing, even acute ones, responded and respond with the expected homeopathic celerity in each case.</i>		<i>During the cancer treatment, there are essential needs which homeopathy play a complimentary role. We prescribe homeopathy based on the repertorisation with or without combination of organ specific, symptom specific, cancer nosode, cancer and constitutional remedies. Patients were relieved from anxiety, could sleep better and got along well with the family members.</i>	
16.00	Coffee Break	Boat Cruise & Dinner at 20.00 hrs (for details see page 43)	
		18.30	La troisième édition de l'Organon dans l'oeuvre de Samuel Hahnemann <i>Bruno Laborier, Comondrèche, Suisse</i>
		<i>'Organon of the art of healing', title of the third edition of Organon, expresses Hahnemann's convictions on medicine in 1824. The analysis of this publication is followed by his synthesis, and his comparison with Hahnemann patients' diaries.</i>	

Chair: Yves Faingnaert

14.00 Role of homeopathy in management of respiratory tract allergies
Geeta Arora, New Delhi, India

Respiratory tract allergies are on a rise throughout the world. The cases presented here show role of homeopathy in tackling respiratory allergies and show very good results for treatment based on constitutional line of treatment.

14.30 A special case
Gio Meijer, Amsterdam, The Netherlands

A case of leukemia treated with homeopathy. There was a relation between her complaints, and a Legionella infection three years before the cancer started. She was treated with isopathy because of the etiology, later she got her similium, fitting the cancer miasm and was cured without conventional treatment.

15.00 Homeopathy and immunology in infectious diseases:
Evidence based medicine
Sudhir Batra, Delhi, India

Immune modulation with the use of Homoeopathy can be demonstrated by monitoring the levels of bio-markers like cytokines, Interleukins, etc. Another way is to show the gene or gene expression modulation with Homoeopathy. The future strategy should be aimed to show the laboratory evidence demonstrating these levels- pre and post treatment.

15.30 Médicaments homéopathiques et récepteurs du cerveau
Albert-Claude Quemoun, Paris, France

In collaboration with the Laboratory of Saint Antoine's Hospital, in Paris, I wanted to prove the activity of high dilutions by moving the QNB* (Quinuclidiny bensilate) with dilutions higher than 10⁻²² of Atropin sulphate and Belladonna in the muscarinic spots or receptors (radioactive technic and electronic microscopy). When we have rats who drink every day Belladonna 4CH, they are more sensible to homeopathic dilutions than the others.

16.00 Coffee Break

Chair: Joyce Frye

16.30 Choix du remède et de sa dynamisation
Jean Lansmanne, Anderlue, Belgique

How to choose the ideal potency? The author summarises his extensive research carried out on this subject. He explains his work, briefly presents the key to a few important potencies and illustrates the notion of 'simillimum potency' by describing the case of a patient.

17.00 The Herscu analysis methodology in a case of nihilistic adolescent depression
Todd Hoover, Philadelphia, United States

A case of an adolescent with depression is used to demonstrate a thematic case analysis process developed by Dr. Paul Herscu and practiced by the presenter for over 20 years. The analysis is described in detail to demonstrate its practical use in accurately identifying less commonly used remedies.

Boat Cruise & Dinner at 20.00 hrs (for details see page 43)

Chair: Florina Carat

16.30 Pharmacopoeia and Hahnemann's instructions
Izel Botha, Durban, South Africa

Current pharmacopoeia and available literature on the manufacture of Q potencies have been converted to easily accessible metric measurements without exact reference to the pharmaceutical measurements found within Hahnemann's writings. This brings into question the reproducibility of Hahnemann's results. Updating homoeopathic pharmaceutical methods may make comparison of results to Hahnemann's writings invalid.

17.00 Conservation des remèdes
Amarilys Cesar, Sao Paulo, Brazil

'Individualised classic single homeopathic medicines and the expiry date of their raw materials. A patient, a single medicine in a given potency, made from a defined raw material. Which is the shelf life of this medicine? of this raw material? Which factors and variables influence it?'

17.30 Testing of plant materials in homeopathic medicine manufacturing
Nishant Jain, New Delhi, India

Plant materials are used in a big proportion to make medicines in homeopathy. The analysis of medicinal plant materials is an important aspect because the final drug substance is not measurable at higher dilutions. All herb samples should qualify all the tests before being accepted for production of further dilutions.

18.00 How to get all homeopathic remedies in France
Laurent Gal, Vailhauques, France

Since January 2012, homeopathic prescribers have had to deal with the increasing problem of limited access to homeopathic remedies. Fortunately some pharmacists have mobilized to offer solutions. During my presentation, I will give you the keys to get all the remedies and their dilutions (CH, DH, K, LM) in France.

Boat Cruise & Dinner at 20.00 hrs (for details see page 43)

08.30	Extending the homeopathic paradigm <i>Anton Popov, Kiev, Ukraine</i> <i>The homeopathic paradigm is not confined to “healing” in the accepted meaning, but extends to a positive way of thinking and seeing the world. Homeopathy gives an opportunity to identify oneself and be true to oneself. The symptoms of pathogeneses can serve for discovery human capacities and determining one’s predestination.</i>	11.00	An evidence based study on cases of polycystic ovarian disease in response to homeopathic medicines <i>Girish Gupta, Lucknow, India</i> <i>An evidence based study was conducted on 180 patients to develop standardized and quality controlled data on the effect of Homoeopathic drugs in PCOD. Vulnerable age group was 21-35 years (126-70.00%). Positive response was obtained in 129(71.67%) with complete resolution in 97(53.89%) and improvement in 32(17.78%).</i>
09.00	The use of homeopathy in obstetrics in Switzerland <i>Martin Frei-Erb, Klaus von Ammon, Bern, Switzerland</i> <i>This follow-up study was to detect changes in the use of homeopathy in obstetrics since 1999 and to expand the survey to all regions of Switzerland. Homeopathy is still widely used in the German speaking part of Switzerland, while it is modestly employed in the French and Italian regions.</i>	11.30	Place of homeopathy in endocrine diseases <i>Didier Deswarte, La Madeleine lez Lille, France</i> <i>Endocrinology, systemic discipline and joined the global model of the homeopathic similarity in its foundations and its mode of action. We discuss clinical applications but also practical implications of this new concept of endocrine disruptors which calls into question the very concept of dose toxicology effect.</i>
09.30	Impact of China rubra 7C on the side effects of quinine: A prospective, randomised study comparing China rubra 7C plus quinine vs. quinine only in pregnant women with malaria in Cotonou, Benin <i>Frédéric Rérolle, Lyon, France</i> <i>105 women received quinine plus China rubra 7CH (China group) and 106 received quinine only (Standard group). In China group, a decrease in proportion of patients presenting with side-effects was observed from day 0 to day 6 of follow-up whereas the proportion of patients in Standard group with side-effects did not change significantly during this time.</i>	12.00	Disease, biologic conflict and simillimum <i>Giovanni Alvino, Mercato S. Severino, Italy</i> <i>In order to comprehend the diseases, it is necessary to catch their message dictated by millennial ‘biological codes’. The diseases represent the attempt of human kind to restructure itself in order to adequate to the new environment requests, for a better survival, re-programming, evolution. The remedy simillimum allows to tune in to the Nature’s frequencies, in informational coherence.</i>
10.00	Ma vie est comme un entonnoir <i>Marie-France Etre, Aubergenville, France</i> <i>Once upon a time there was a 50 yr old woman whose life ‘got in a funnel’, with a sense of fragmentation of the body, a desire to commit suicide, loss of energy. The magic fairy of homeopathy passed by, the woman not only survived all her troubles, she also found more meaning to life through creation.</i>	12.30	Animal planet: Provings and beyond the provings <i>Roberto Petrucci, Milan, Italy</i> <i>The knowledge of the materia medica is very different if we consider polychrests or lesser remedies. Usually we base our prescriptions using information coming from the provings, but sometimes it’s necessary to use different strategies. The author will show five cases where five not very common animal remedies were prescribed.</i>
10.30	Coffee Break	13.00	Lunch Break

Chair:	Barbara Bichsel	Chair:	Edward De Beukelaer
08.30	Treating a post corrosive oesophageal stricture with homeopathy <i>Piyush Joshy, Vadodara, India</i> <i>A case of accidental etiology, of post corrosive esophageal stricture, can be treated with superior efficacy taking advantage of homoeopathic methodology of individualization, dynamic remedy and totality of symptoms, consequently achieving the highest ideal of cure, ‘rapid, gentle, permanent’, as laid down in Organon of Medicine by Dr. Samuel Hahnemann</i>	11.00	An evidence based study of homeopathic treatment of adnexal cysts and breast lumps <i>Sapna Gupta, Gwalior, India</i> <i>A study of 100 cases (63 breast lumps and 37 ovarian cysts) was undertaken to study the efficacy of homoeopathic medicines in these cases. Before and after ulatrasonogaraphy was done in all the cases to provide scientific evidence of the study. We will discuss the results.</i>
09.00	How to treat patients with psychiatric disorders <i>Seyedaghanoor Sadeghi, Tehran, Iran</i> <i>While more than 33% of people world over are suffering from psychiatric signs and symptoms, according to the World Health Organisation, homeopathic remedies may provide a rapid, gentle and permanent method of healing. About 1000 patients were treated effectively with classical homeopathy during 5.5 years. Randomized clinical trials are suggested.</i>	11.30	A case study of chronic chorea in an old man cured by homeopathy <i>Sheo Murti Singh, Allahabad, India</i> <i>‘Chorea’ is a neurological disorder characterized by abnormal, repetitive, uncoordinated involuntary movements. The Evidence based (Audio-visual) well documented case of a 65 years, male, presenting with complaints of chronic facial ‘chorea’, involving nearly all voluntary and involuntary muscles not responded by other disciplines, but cured by Homoeopathy completely.</i>
09.30	Homeopathy on the move: Strategies in Indian rural set up <i>Mihir Parikh, Vadodara, India</i> <i>Achieving ‘Health for all’ by Reaching to the Unreached section of the society is the objective. Implementing strategies – emphasizing need of Multi disciplinary and Multi centric approach was taken up by creating a Team. Various epidemics were treated Homoeopathically. Homoeopathy with Preventive, Promotive and Curative aspects is given priority.</i>	12.00	A case of Guillain Barré Syndrome cured with homeopathy <i>A.K. Gupta, New Delhi, India</i> <i>Guillain-Barré syndrome is an acute illness caused by inflammation of peripheral nerves leading to loss of sensation, muscle weakness and, in more serious cases, complete paralysis and breathing difficulty. 80% of cases have preceding a recent illness (usually viral). Case of Ayesha suffering from GB Syndrome got cured with Homoeopathy. Homoeopathy plays an important role in treatment such cases.</i>
10.00	Homeopathy for patients with schizophrenia <i>Ronko Itamura, Tokyo, Japan</i> <i>Schizophrenia is a chronic and recurring disease. I will present three cases with schizophrenia and indications of recovery from schizophrenia through homeopathy are defined as three steps. Homeopathy can be very useful in addition to or instead of medication for schizophrenia, including the use of a three-step strategy.</i>	12.30	Clinical efficacy in chorionic hematoma <i>Karen Allen, Phoenix, United States</i> <i>Chorionic hematoma is the most common sonographic abnormality detected in viable pregnancy. Homeopathy offers strong options for prompt resolution. Karen Allen, CCH presents a retrospective case study of 18 women with hematoma, showing efficacy and raising interesting questions about potency selection in physical pathology based on the results.</i>
10.30	Coffee Break	13.00	Lunch Break

Chair: Eric Vanden Eynde

08.30 The itch of homeopathy
Gyandas Wadhwani, Delhi, India

Post-Hahnemann era, homoeopathy has failed to take a unified stand or clearly explain the concept of itch, scabies and psora. And, the perplexity of terminology haunts the homoeopathic physicians across the globe even in the 21st century. Unless thoroughly investigated, this shall persist to be a sore point or the 'itch' of homoeopathy.

09.00 Superbug crisis proves vital dynamics
Sanjay Gupta, Bhopal, India

Man has worsened his own suffering by introducing illogical / time bound solutions to dynamic issues. Superbug is an offspring of his negligence and overuse of available resources. Homoeopathy the science of vital dynamics of life alarms this butchery and also guides the way to a healthier happier simpler life.

09.30 Building remedy profiles form clinical observation: A short case series of two 'minor' nosodes
Russell Malcolm, Luton, United Kingdom

Patients often present with 'Gateway Indications' for a nosode. However, many valuable nosodes are frankly 'un-repertorisable' using standard repertories. Specialist repertory data sets derived from case series' are under development. The outline remedy pictures for two lesser known bowel nosodes will be presented, based on case-data rationally extracted and collated.

10.00 Modern view of homeopathy based on an imbalance of miasms described by Samuel Hahnemann
Kateryna Tsvyetskova, Kiev, Ukraine

New approach to homeopathic prescription, based on Hahnemann's theory of miasms is presented. Different balances between the main miasms of Hahnemann in seven main age groups can control health, while an imbalance leads to different diseases. As homeopathic remedies have varying reactivity profiles of the main miasms they can ideally correct the imbalance.

10.30 Coffee Break

Chair: Russell Malcolm

11.00 A clinical study of the influence of homeopathic remedies over autonomic nervous system by measuring of heart rate variability in a group of 50 patients
Dora Pachova, Sofia, Bulgaria

50 patients have been tested for tonus of the ANS by measurement of heart rate variability (HRV) before and after the administration of homeopathic remedy. HRV increases after homeopathic remedy in most of the cases that indicates the organism is in better condition. Measurements prove the immediate effect of the remedies over the physiological state of the organism.

11.30 The role of Italian avant-garde in the diffusion and application of Hahnemann's medicine in 1800, new acquisitions on communication
Michela Ridolfi & Gaetano-Maria Micciché, Rome, Italy

Eminent Italian personalities had already understood by the end of the 1700's, the genius of Hahnemann at the beginning of his scientific speculation, observing and following the foundations of homeopathic medicine. Postilions, carriages, and a "pure syntony of body and mind" as well as spreading the new medicine news in Italy.

12.00 The concept form: A criterion justifying the art of homeopathic healing – Life force: Game and counter game of the form between visible signs and invisible symptoms
Nello Fasolino, Turin, Italy

The miasm made flesh as an invisible symptom, that is impossibile to see (203, 279 C.D.) Homeopathic healing art is a divided opera determined by the difference between visible disease and invisible miasm. Intimate outward appearance or inner foreign territory: source, certainty and form of Hahnemannian truth (60, 69 Organon).

12.30 Secrets of evolution of miasms and homoeopathy
Ramabhai A. Patel, New Delhi, India

When philosophy of TRIDOSAJ of Indian system of medicine (Ayurveda) was compared with TRIMIASMATIC philosophy of Homoeopathy it was astonishingly found that characteristic stigmas depicted in each philosophy of each one went parallel with its counterpart, and writing of contemporaries generated more interest finally to establish that Homoeopathic science is miniature copy of Ayurveda.

13.00 Lunch Break

Chair: Pascale Daubie

08.30 Using High LM potencies: Cases of neurodermatitis and Parkinson
Jaume Costa, Trim, Ireland

We will discuss the case of a patient with neurodermatitis for more than 11 years: treatment and follow-up. The use of high LM potencies, in cases with many mental symptoms, speeds up the healing process and decreases the risk of aggravations.

09.00 Cuscuta Europea: étude pathogénétique multicentrique française
Hélène Renoux, Villejuif, France
Jean-Marie Deschamps, Villejuif, France

Cuscuta Europea, is a climbing parasitical plant. Four working groups have proved it using the classical or the trituration methodology. Aim: - To draw up a Materia Medica, and to propose a summary view: relationship with the other from the perspective "merger/differentiation"; - Compare the methodologies used.

09.30 Le fondamental dans la réalisation d'une pathogénésie à partir des expérimentations de 3 arbres africains (Azadirachta indica, Moringa oleifera et adansonia digitata)
Françoise Saint-Didier, Bressuire, France

To set up a partnership between French and Beninese homeopaths, proving of three trees implanted in Africa were initiated. Hypotheses were deducted from them. I will highlight, what seemed to me the most important in the instructions, so that the study can be totally used during a consultation.

10.00 Contribution of basic and clinical research to the registration of homeopathic medicine in Europe
Michel Van Wassenhoven, Chastre, Belgium

Registration of homeopathic medicines requires various scientific data. Proving, clinical data, basic research allow better understanding of the mode of action. Homoeopathy is becoming part of Nano-medicine.

10.30 Coffee Break

Chair: Hélène Renoux

11.00 Homeopathic pathogenetic trials: A conceptual analysis of the ethics
Ashley Ross, Durban, South Africa

The homeopathic pathogenetic trial (HPT) is discussed in terms of its importance within homoeopathy and its deviations from the methodological and ethical norms of early phase trials. The LMHI, ECH and HPCUS guidelines for HPTs are compared and the ethical considerations are evaluated.

11.30 A comparison of the homeopathic drug proving of the venom of the Eastern Green Mamba (dendroaspis angusticeps) to the proving symptoms of Black Mamba (dendroaspis polylepis) venom
Madhueshwaree Maharaj, Durban, South Africa

South Africa has a vast range of indigenous species of fauna and flora, some of which are used traditionally for healing. The findings of a double-blind, placebo controlled homoeopathic proving of Dendroaspis angusticeps 30CH will be presented, with a subsequent comparison of the derived symptoms of Dendroaspis angusticeps with the published symptoms of Dendroaspis polylepis.

12.00 A homeopathic approach to treat middle-aged Japanese women with Lachesis muta: Two case reports
Mari Doi, Hirakata, Japan

Two Japanese women with anxiety were cured with Lachesis muta. Their underlying problems were the suppressed desire for attracting attention and the strong sexual drive. It took time to reveal them because they were culturally inadequate theme for women. It is important to consider the cultural influence and patient's psychodynamics.

12.30 Development and refinement of the proving
Gustavo Dominici, Rome, Italy

The Author has refined the original Hahnemannian methodology by making significant modifications. The proving of Streptococcinum, tested at the School of Homeopathy in Verona in 2012, is shown. The symptoms produced were intense and characteristic. Finally it shows a clinical case of serious post-urethritic reactive arthritis cured by Streptococcinum.

13.00 Lunch Break

Chair: Philippe Servais		Chair: Alain Sarembaud	
14.00	Efficacy of alternative medicine (homeopathy) for the relief of cancer pain: A prospective study <i>Farokh Master, Mumbai, India</i> <i>Our study for the last 5 years involves Analysing & Evaluating Cancer patient using International protocol for pain & quality of life. Karnofsky performance status scale, The Short Form (36 Health Survey) and the European organization of research in treatment of cancer (QLQ- C30) were used. Each Protocol will explain with its merits & demerits.</i>	16.30	Successful and reliable homeopathic prescribing especially in acute cases using Bönninghausen's therapeutic pocketbook with the polarity analysis from Dr. Heiner Frei <i>Klaus Rentrop, Hamburg, Germany</i> <i>Three acute cases are being demonstrated to show the reliability of homeopathic prescribing in using the computer program of Bönninghausen's Therapeutic Pocketbook with Dr. Heiner Frei's method of polarity analysis and contraindications.</i>
14.30	The materia medica pura project: A systematic updating of our materia medica and repertory <i>André Saine, Montreal, Canada</i> <i>Presentation of the methodology and results of the Materia Medica Pura Project that began in 2009 a systematic updating of our repertories and materia medica by regrouping and integrating provings, cured cases, clinical experience and pertinent toxicology since it was last done by TF Allen and Hering in the 1880's.</i>	17.00	Hahnemann: The traveller <i>Gaby Rottler, Weissenburg, Germany</i> <i>Many homeopaths are familiar with the fact that Samuel Hahnemann went from Germany to Paris, France. But it is not so well known that he moved house more than 30 times during his life. Was he a restless traveller? This lecture gives interesting insights into Hahnemann's work, travels and family life.</i>
15.00	When another methodology overcomes the shortcomings of the medical medica <i>Yves Maillé, Aix-en-Provence, France</i> <i>I used the same method for 3 cases, namely the understanding of the theme of the remedy. Very 'classic' in the way I usually work, I stayed without solution on the basis of a répertorisation. It is obvious that we can find in the repertory only the explored part of a remedy. The confrontation of the cured clinical symptoms and the remedy origin allows to assert that the symptoms of these 3 patients would have been present in the repertory if the remedy had been enough studied.</i>	17.30	Hahnemann in Paris <i>Olivier Rabanes, Paris, France</i> <i>The stay of Hahnemann at the end of his life in Paris (1835-1843) gave a large expansion for homeopathy. I will talk about the position of Mélanie, the different places of residence of the couple, the big medical activity of Hahnemann, his relations with the French homeopaths, his use of new dilutions, his death and burial in cemetery of Montmartre and Père Lachaise.</i>
15.30	La maison du chaos <i>Jean-Marie Tribouillard, Annecy, France</i> <i>What sin has the Vestal virgin committed? Has she lost her purity? Renounced the life of chastity? Or allowed the fire to die? Could the sacred fire she's been guarding have smoldered to an ember and be torturing her, consuming her from the inside as would the flames of hell? A remedy (Ignis Alcoholis) could help her exorcize her obsessional thoughts and suffering.</i>	18.00	The availability of homeopathic medicines in the EU <i>Christiaan Mol, ECHAMP, Brussels, Belgium</i> <i>ECHAMP represents some 50 companies from 19 EU Member States. A number of its members produce a significant range of medicines for individualised homeopathy. ECHAMP is committed to policies that enable their availability. Recent ECHAMP study data show that the demand is higher than the actual availability.</i>
16.00	Coffee Break	18.30	Closing Address <i>Philippe Servais, President of LMHI France</i> <i>Renzo Galassi, LMHI President</i>

Chair: Alain Pitel		Chair: Michel Français	
14.00	De l'action homéopathique à l'effet psychothérapique <i>Pierre Lenthéric, Nîmes, France</i> <i>The homeopathic remedy has its own action: to be able to differentiate it from placebo is a strong argument. The homeopathic approach (either classical or pluralistic) when it looks at the patient's feelings brings great improvements, especially as these feelings are related to somatization.</i>	16.30	Integrated medicine in a candidate for liver and kidney transplantation <i>Giuseppe Fagone, Verona, Italy</i> <i>A patient with repeated episodes of encephalopathy in non-cirrhotic portal hypertension treated with portacaval shunt and subsequent tubular acidosis, candidate for liver and kidney transplantation. Treated with Arsenicum album in LM potencies after two year was removed from the transplantation list and has improved the quality of is life.</i>
14.30	L'homéopathie dans la correction des facteurs de risque cardio-vasculaire <i>Bernard Payrau, Paris, France</i> <i>Based on a 35 years practice of Homeopathy in cardiology, means for helping patients more efficiently sustained new healthy habits can be released. By the means of Homeopathy we can propose strategy, targeted actions and guidance very finely personalized for correcting risk factors and prevention of cardiovascular events.</i>	17.00	Basses dilutions en homéopathie avec observation d'algoneurodystrophie <i>Claude Jousset, Paris, France</i> <i>Let's remember that homeopathy is about similarity, not about the height of dilution. Therefore homeopathy can be practiced with low dilutions from Mother Tincture to 4CH (or 8DH) included. Both cases of AlgoNeuroDistrophy presented here were quickly relieved and cured with the same homeopathic treatment exclusively based on low dilutions.</i>
15.00	Un cas de néphrose lipoïdique: Suivi au long cours (1995-2013). Quel niveau de guérison? <i>François Gassin, Nantes, France</i> <i>Nephrotic syndrome / unreachable dream / explosions / hair shaved / puffy eyes / corticoids / dragon ball z addicted /apocalyptic - allopathic race / severe depression / metamorphosis / mental strength / Israel / destructive / divorce / initial ritual trauma - creative / vital energy / different / cynical / narcissistic / control organize / born leader / withdraw into himself / selfexplosion - intuitive / immoral / abused / metaphysics / generations / actinides / thorium /</i>	17.30	Abcès dentaires et sclérose en plaque <i>Mathilde Vian, Istres, France</i> <i>I will present the case of a patient, suffering from sclerosis in plate, with homeopathic treatment of dental abscesses were observed regression quickly and over the 3 years following the sclerosis of this patient and a psychic and physical improvement.</i>
15.30	Traitement homéopathique de l'encéphalomyélite myalgique post morsure de tique: une étude à propos de 120 cas cliniques <i>Frédéric Schmitt, Sarlat, France</i> <i>The author presents 127 cases of Myalgic Encephalomyelitis or Chronic fatigue syndrome following tick-borne diseases treated during one year: 70% were treated by homeopathy with a particular methodology alternating nosodes and simillimum, 20% by antibiotics and 10% by the association of the two.</i>	<div>18.30</div> <div>Closing Address <i>Philippe Servais, President of LMHI France</i> <i>Renzo Galassi, LMHI President</i></div> <div>Amphi Bleu</div>

14.00 Paralytic ileus after ileocystoplasty in a patient with spinal cord injury
Susanne Pannek-Rademacher, Zug, Switzerland

A paralytic ileus is a typical complication of ileocystoplasty of the bladder. In patients with a spinal cord injury, this risk is higher due to a preexisting neurogenic bowel dysfunction. We present the case of a paraplegic man who developed a massive paralytic ileus after ileocystoplasty and surgical revision.

14.30 The museum of homeopathy: Italian historical archive
Francesco Eugenio Negro, Rome, Italy

The Museum of Homeopathy – the Italian Historical Archive was inaugurated in Rome in 2013. It contains 80,000 books, over 100 kits of remedies, about 3,000 “memorabilia” (letters, manuscripts, autographs, medals, etc.) and a complete collection of worldwide postage stamps commemorating Homeopathy. This prestigious center, which overlooks the historical Navona Square, is where Antonio Negro reorganized Italian Homeopathy in the 1940’s.

15.00 Homeopathic treatment of patients attending a rural primary health care clinic in the Valley of a Thousand Hills, KwaZulu Natal, South Africa
Cornélia Hall, Durban, South Africa

The author will present an overview of different homoeopathic approaches in the adjunctive management of various pathologies in an impoverished rural community based setting. Cases will demonstrate the impact of homoeopathy both as palliative and curative modality. Conditions such as HIV/AIDS, Tuberculosis, skin diseases and psychological disorders will be discussed.

15.30 Homeopathic management in depressive episodes: A prospective, unicentric, non-comparative, open label observational study
Praveen Oberai, Delhi, India

An observational study on 85 patients was undertaken at Central Research Institute (H), Kottayam, India, to evaluate the role of homoeopathic medicines in management of depressive episodes. Statistically significant differences were observed in HDRS, BDI and CGI scales after six months. Further controlled studies are needed to assess the efficacy.

16.00 Coffee Break

18.30 Closing Address

14.00 Evaluation of Lappa arctium and Zingiber officinale in treatment of acne vulgaris
Anjali Miglani, New Delhi, India

The paper discusses about two separate exploratory, non-randomized studies with Lappa Arctium (ClinicalTrials.gov Identifier: NCT01040390) and Zingiber Officinale (ClinicalTrials.gov Identifier: NCT01321632). The results include change in acne lesion counts, reduction in Global Acne Grading System (GAGS) score and improvement in Acne-Specific Quality of Life questionnaire (Acne-QoL) score during the six months follow up of each subject.

14.30 A clinical study on continuation of action of fiftymillesimal potency after suspending its administration
Indrani Chakrabarti, Kolkata, India

Two cases were treated with fiftymillesimal potency and though the common practice is to repeat a dose every day or every alternate day in chronic disease but it was observed that a dose of fifty millesimal potency continued to improve a case of vitiligo and give relief to pain in a case of secondary spinal canal stenosis for more than a month after suspending the administration of the remedy during its course of treatment.

15.00 Role of homoeopathic medicines in prenatal and antenatal care
Sapna Gupta, Gwalior, India

Homeopathy is of immense importance in helping the female to cope with the changes in her body without affecting the growing child. Pregnancy is considered the ideal time for prescribing medicines which could help in establishing the health of both mother and her growing child. Well-chosen homeopathic remedies will help cure all complaints and are safe and have no side effects.

15.30 Homeopathic management of urolithiasis in reproductive age group females: An evidence based study
Purnima Shukla, Gorakhpur, India

The objective of my talk is to establish the efficacy of homoeopathic medicines through assessment on modern diagnostic tools in childbearing age group females having urolithiasis to make them acceptable to scientific world.

16.00 Coffee Break

Chair: Jean-Thierry Cambonie

16.30 What is health? What is disease? Levels of disease
Kostas Pisios, Athens, Greece

In finding any cure the most important things to know are what is health and what is disease. Every person has different diseases during his life, so in order to see if the applied treatment cures or just affects some symptoms, we need to define and find his levels of disease.

17.00 Evidence based study: Efficacy of homeopathic drugs in cases of kidney stones
Ritu Raj Agarwala, Burdwan, India

Homoeopathic medicine offers the most cost effective and less suffering treatment for the passage of kidney stone. It also prevents from the recurrence of stones even after surgical treatments. Berb. V, Lycopodium clavatum, Sarsapirilla, Sulphur, etc. are effective medicines at high dilution for kidney stone including secondary infection to urinary tract.

17.30 My experience with end stage renal disease: Limitation of homeopathy
Pankaj Aggarwal, Delhi, India

A study where-in 46 patients (with/without Dialysis) of ESRD were treated with similimum. Here-in, I learnt the importance of BIO-PSYCO-SOCIAL factors in Prescribing Similimum. A remarkable relief of 54.3% with significant p-value proved the effectiveness of Similimum. But, level-2 of Healing could be achieved.

18.00 Homeopathy in urban primary healthcare units of the Delhi government: An assessment
Surender Verma, Delhi, India

Delhi, though becoming a hub of medical tourism, is finding it hard to provide a reasonably cost-effective primary and secondary healthcare system for its habitants. Homeopathy can be an answer by providing economical treatment. This paper explores popularity and cost-effectiveness of Delhi government homoeopathic units and also analyses the utility of their services by public.

18.30 Closing Address
Philippe Servais, President of LMHI France
Renzo Galassi, LMHI President

Registration

Registration fees	On-site	Payment
		Only credit card payments are accepted: VISA, MasterCard, American Express and Diners. Credit card payment will be automatically processed.
Full Period		Cancellation Policy
Member LMHI	€ 750,00	Participants cancelling their registration before 1 June will receive a 50% refund.
Non Member LMHI	€ 850,00	There will be no refunds for cancellations received after that date. Cancellations must be confirmed in writing to the Congress Secretariat. All refunds will be processed after the congress.
Students and Retired Persons	€ 520,00	
One Day Registration		Registration Desk
Member LMHI	€ 370,00	Opening hours:
Non Member LMHI	€ 370,00	13.30 – 19.30 hrs on 16 July
		08.00 – 19.00 hrs on 17-18-19 July

Two Day Registration		The Registration Desk is located on the 2nd floor of the Palais des Congrès.
Thursday & Friday	€ 640,00	
Friday & Saturday	€ 640,00	
		Badges
		Participants are obliged to wear the official LMHI 2014 badge on all occasions. There will be rigorous badge controls for access to all congress functions.

Social Program		Lost Badges
Welcome Reception - Wednesday, 16 July	included	Participants who lost their badge will have to register and pay anew. So please take care of your badge, it is valuable!
Welcome Reception Partner	€ 30,00	
Boat Cruise & Dinner - Friday, 18 July	€ 110,00	
<i>Seats are limited</i>		

- The registration includes**
- Access to all scientific sessions
 - Access to the exhibition
 - Meeting bag with programme and relevant documents
 - Coffee breaks as announced in the programme
 - Welcome Reception on Wednesday, 16 July

Social Programme

Wednesday, 16 July 2014

Official Opening and Welcome Reception at 17.00 hrs

The Organising Committee has the honour to invite you to the Official Opening of the LMHI 2014 Congress, followed by a Welcome Reception. The Official Opening will take place in Amphi Bleu and the Welcome reception will take place in Hall Maillot, both located on the 2nd floor of the Palais des Congrès.

Access is free to all participants wearing a valid badge. Partners can also attend but separate registration is required (rate: 30,00 €).

Friday, 18 July 2014

Musical Interlude at 10.30 & 13.00 hrs

You are invited to participate in a lyrical musical interlude by H  l  ne Carpentier, taking place in Amphi Bleu at 10.30 hrs and again at 13.00 hrs.

Boat Cruise & Dinner at 20.00 hrs

The Boat Cruise leaves from Pont de l'Alma*, Rive Droite. The Boat will take us on a 2-hour trip through Paris. This Cruise will allow you to discover or rediscover all of the magic of the banks of the River Seine, which are enhanced, in no predictable order, by the most prestigious monuments which have marked history.

**You can take Metro line 9 – Alma Marceau or Metro Line 1 – Franklin Roosevelt to reach the Pont de l'Alma.*

Sunday, 20 July 2014

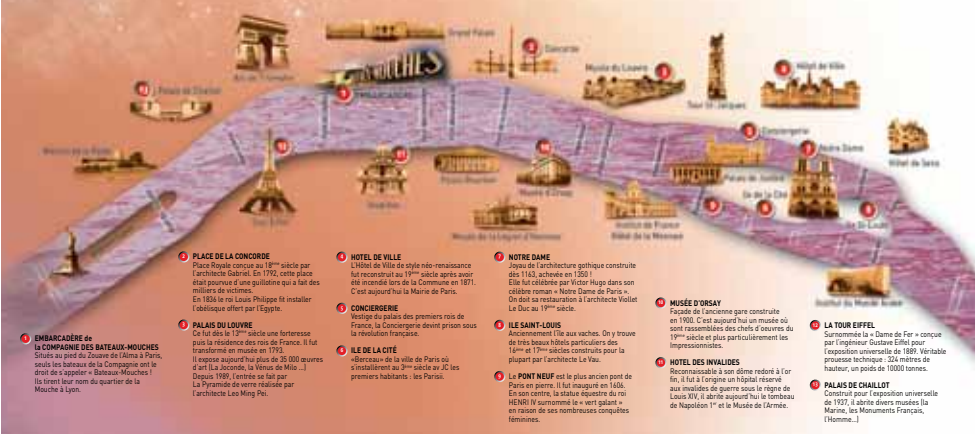

Visit of Hahnemann's Grave at 10.00 hrs and at 11.00 hrs

Two visits of Hahnemann' grave at the P  re Lachaise Cemetery are planned, at 10.00 hrs and again at 11.00 hrs. Meeting point is the main entrance of the P  re Lachaise Cemetery.

Venue: P  re Lachaise Cemetery, Boulevard de M  nilmontant
Metro Stop: P  re Lachaise, Line 3, direction Gallieni.

Kindly also note that a **Hahnemann Exhibition** will take place in Hall Maillot (2nd floor of the Palais des Congr  s) throughout the congress.

The **Hahnemann Exhibition** is sponsored by

General Information

Venue

Palais des Congrès
2, Place de la Porte Maillot
75017 Paris, France

How to get there

Metro: Yellow line 1. Stop: Porte Maillot RER: Line C. Stop: Porte Maillot

Parking

A Vinci car park is situated under the congress’ venue.
Price indication: +- 36,00 €/24hrs.

Headsets

Simultaneous translation is provided in Amphi Bleu and Room 251.
In exchange for a 100 Euro guarantee you will receive a headset at the Headset Desk, located next to the Registration Desk on the 2nd floor.
The headset must be returned every day for cleaning and recharging. The guarantee will be given back to you when you return the headset in the evening.

The headset desk will be open on Thursday, Friday and Saturday from 08.00 until 19.00 rhs.

Please take good care of your headset!

No Headset = No returned guarantee

Speakers’ Corner

Speakers are requested to upload their PowerPoint Presentations latest 2 hours before their scheduled presentation. Presentations from personal laptops are discouraged.

Opening hours:
13.30 - 18.00 hrs on 16 July
08.00 -18.00 hrs on 17 – 18 -19 July.

Speakers are kindly requested to introduce themselves to the chairs of their session before the session starts.

WIFI

The Palais des Congrès offers 4 hours free connection/day. After ending your session, please disconnect.

Coffee Breaks

Coffee will be served in the exhibition area during the breaks between sessions. These are included in the registration fee.

Catering Counter

Hyatt Regency Etoile Hotel provides a catering counter where you can buy sandwiches, coffee, soft drinks and sweets at a democratic price. Please note that this catering counter only accepts cash payment.

Currency

The local currency is the Euro (€). Most shops and restaurants in Paris accept credit cards, but not all. It is therefore recommended to either ask before you order or ensure you have a sufficient amount in cash to cover the bill. Most shops and restaurants do not accept € 200 - € 500 notes.

Cash Dispensers – ATM machines

Cash Dispensers are located on floor 0 and -1.

Currency Exchange Office

The Currency Exchange Office is located on floor -1.

Cloakroom

A guarded cloakroom will be available near the Amphithéâtre Bleu. Luggage can also be stored here.

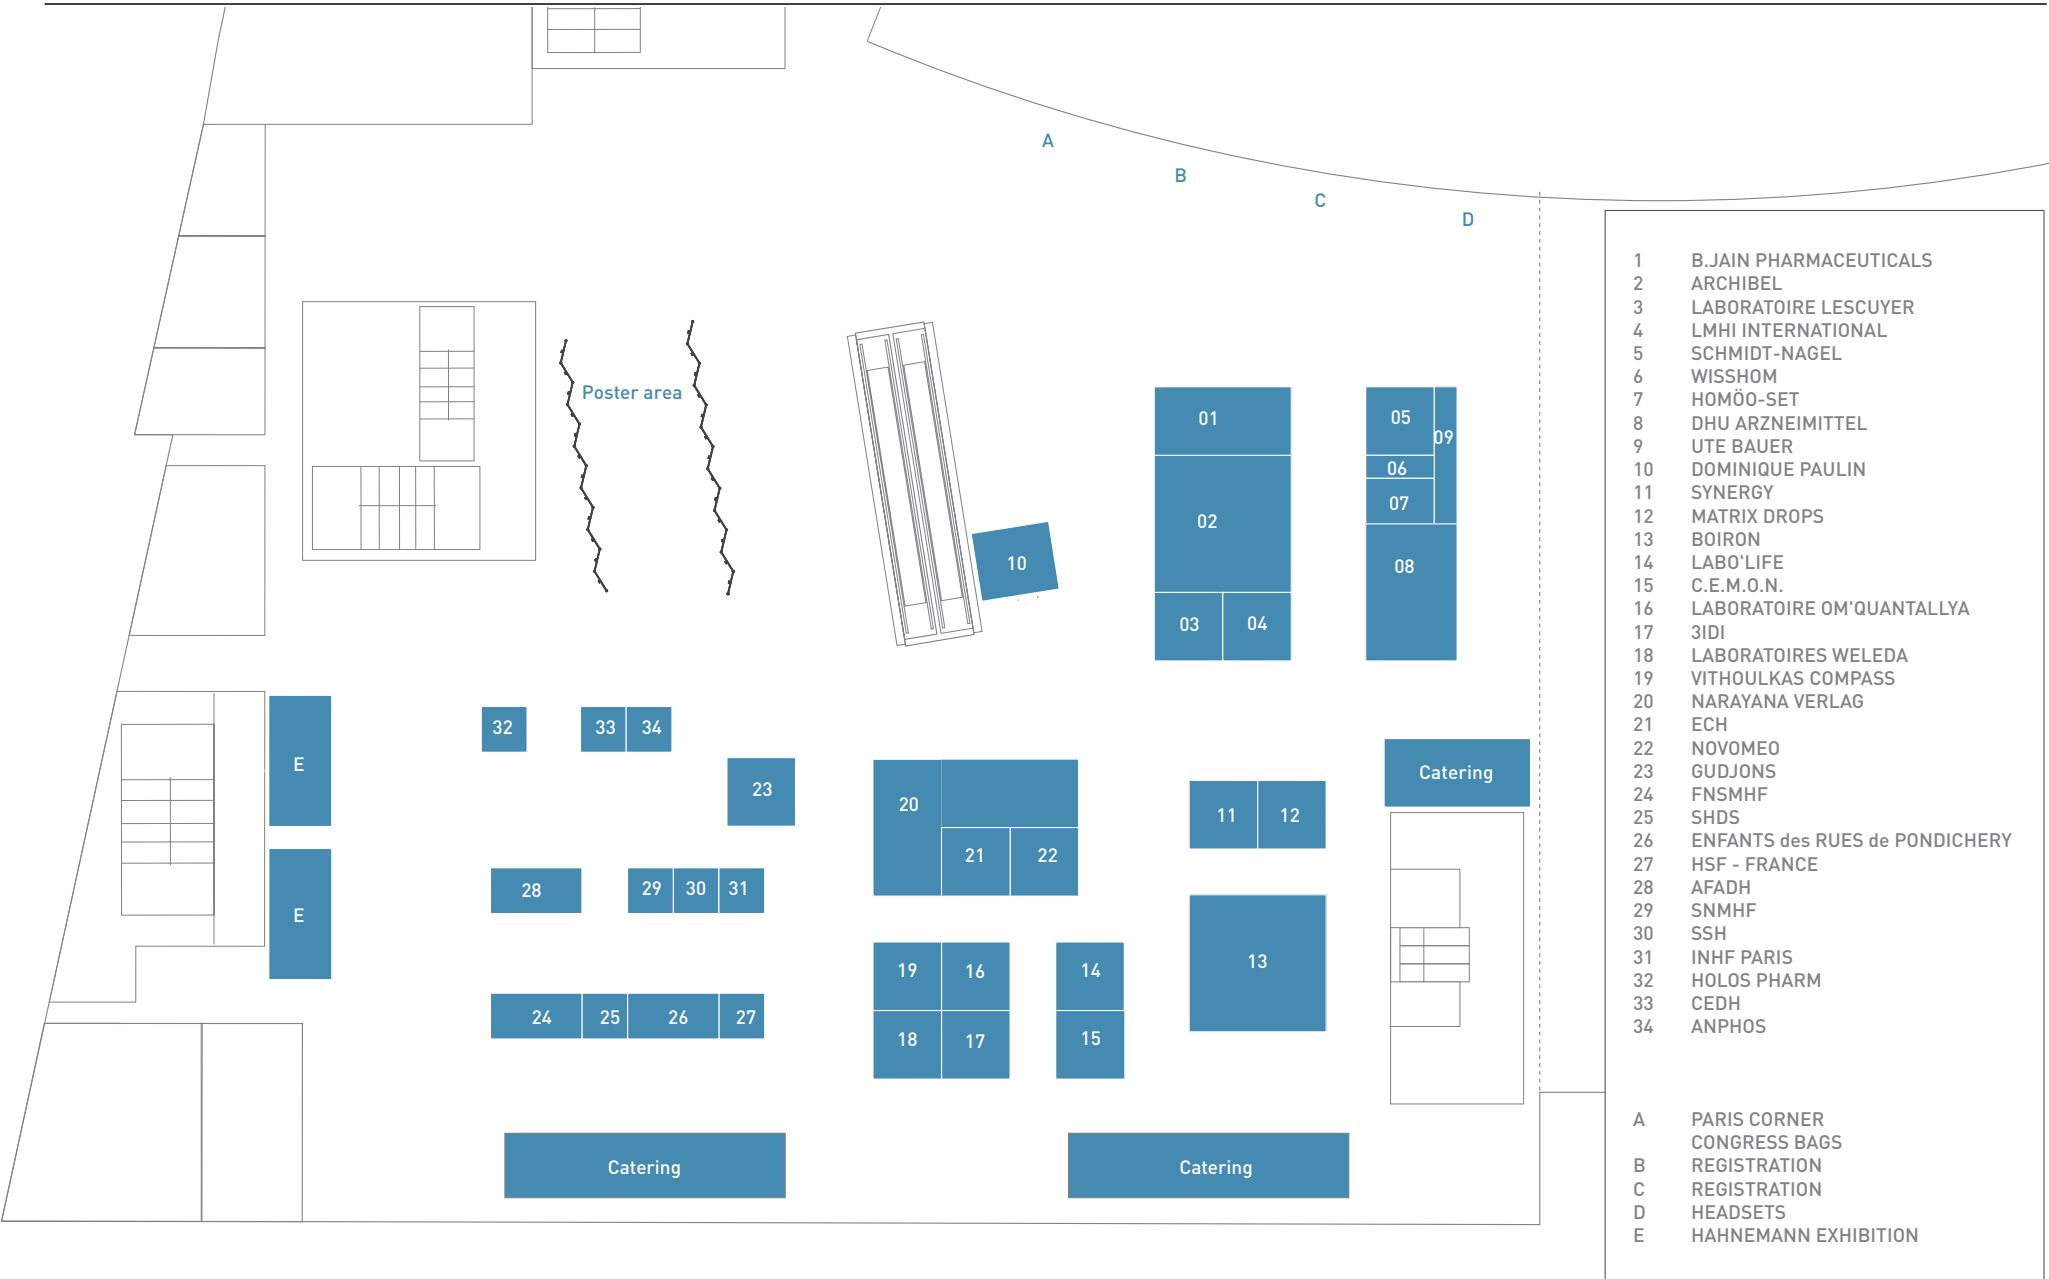

Pharmacy

A pharmacy is located on floor 0.

Liability

Neither the organisers nor Medicongress accept liability for damages and/or losses of any kind which may be incurred by Congress participants or exhibitors during the Congress. Participants and exhibitors are advised to take out insurance against loss, accidents or damage which could be incurred during the Congress.
